**NAME:** Lorraine Finit

**ADDRESS:** 6609 Goodwin Rd. Everson, WA

**COMMENTS:** It seems 24 jobs is worth the price everyone that uses water from our aquifer will have to worry about. Once gone then what? 1

Have we listed the side effects of the 3 tons of toxics a day? The ash will come down, in time will the milk, meat, and vegtables be usable. It has many of the same substances as sludge which was considered unsafe and banned from being used. 2

Bellingham worries about the chlorine there and has emergency programs Will Semes do the same for the ammonia. 3

Will people be taught to recognize the symptoms of the allergies so they can move their children? Remember the problems of Intalco with the farming and the health problems of many of the employees. 4

Who will pay the bills of 25 to 30 yrs down the line Abbotsford decides "enough is enough." Another empty gas station only bigger 5

It's really hard to understand taking those risks with peoples lives. 6
