Letter 249

May 1, 2000

Subject: Sumas Energy 2

Dear Council:

I am outraged by this project proposed for Sumas. The dangers of air, water and noise pollution are hazardous.

Just because Sumas is a small depressed community right now does not mean we will accept unsafe industry here! 1

No one is running power lines in my front yard and all my neighbors feel the same way!

So build your plant in an unpopulated area of need.

Signed
