**Request to Transfer the Site Certification Agreement to PacifiCorp**

In a letter dated April 30, 2008, PacifiCorp and Chehalis Power Generating LLC (Chehalis Power) requested that the Energy Facility Site Evaluation Council (EFSEC) transfer control of the Chehalis Generation Facility Site Certification Agreement<sup>1</sup> to PacifiCorp. If approved by EFSEC, the transfer of control to PacifiCorp would trigger technical amendments to the SCA to formally recognize the change in ownership and commitments made by the new owner to comply with all conditions of the existing Site Certification Agreement.

**Request to Change the Financial Security for Site Restoration**

PacifiCorp is also requesting EFSEC approve a change in the financial security provisions for site restoration of the Chehalis Generation Facility. PacifiCorp is requesting EFSEC terminate the current requirement to have letters of credit, cash, or other financial instrument submitted on an annual basis until \$5 million (in 2001 dollars) has been provided, and to require the site restoration obligations become a general utility obligation of PacifiCorp.

---

<sup>1</sup> The Site Certification Agreement is the state permit allowing construction and operation of the generation facility and detailing the ownership and conditions for operation.
