**Request to Amend the Wild Horse Wind Power Project Site Certification Agreement to  
Expand Wind Power Generating Capacity**

On July 2, 2008, Puget Sound Energy (PSE) requested that the Energy Facility Site Evaluation Council (EFSEC or Council) approve an amendment to the Wild Horse Wind Power Project (WHWPP) Site Certification Agreement (SCA). If approved, the amendment would allow expansion of the site by 1,280 acres, from 8,600 acres to 9,880 acres. The amendment would also allow the construction of 26 new turbines with a generating capacity of up to 54 megawatts (MW) in the expansion area, resulting in a total maximum generating capacity of 283 MW.

**August 6, 2008: EFSEC Public Hearing**

As indicated above, on August 6, 2008, starting at 7:00 p.m., EFSEC will conduct a Public Hearing at the Central Washington University Student Union and Recreation Center Ballroom in Ellensburg, Washington to receive public comments from citizens, stakeholders, and interested persons or organizations on the request to amend the SCA.

We invite all interested persons to attend and participate in this hearing.
