This is an application for certification of a proposed site at Satsop, Grays Harbor, Washington for construction and operation of a natural gas-fueled combustion turbine facility to generate electrical energy and its associated natural gas pipeline in both Grays Harbor and Thurston Counties, Washington.

The Council held a prehearing conference on June 22, 1995, before Council vice-Chair C. Robert Wallis and members Walt Swenson, Jo Roller, Doug Kilpatrick, and Ron Skinnerland.

APPEARANCES. The following persons participated in the prehearing conference.

Applicant, Washington Public Power Supply System, by Jeff Leppo and Karen McGaffy, Attorneys, Seattle; Counsel for the Environment, Thomas J. Young, Asst. Attorney General, Olympia; Dept. of Ecology, by Jo Mossix Casey and Tom Morrill, Asst. Attorneys General, Olympia; Washington State Energy Office, by Thomas Prud'Homme, Asst. Attorney General, Olympia; Dept. of Fish and Wildlife, by William Frymire, Asst. Attonrey General, Olympia.

Scheduling issues. The parties agreed to block out the period August 7 through August 18 as the preferred dates for the hearing. That period is not entirely satisfactory either to the applicant or to the other parties, but given the Council's schedules for other hearings and commitments of the parties, it appears to offer the best available alternative.

Issues list. The applicant described its efforts toward achieving an agreed issues list. It will refine the list after further discussions with parties and after the filing of other parties' direct evidence. Matters that parties do not raise in their direct evidence will be deemed abandoned unless good cause is demonstrated for later broaching such an issue.

Motion to exclude evidence. The applicant agreed to file a motion to exclude evidence no later than 5:00 p.m., July 10, 1995. The motion will discuss the applicant's concerns that some aspects of its application process are outside the aegis of the adjudicative process, and therefore, should be excluded from evidence. Other parties will respond no later than 5:00 p.m., July 24, 1995.

Presentation of Stipulations. The Council requested that stipulations be presented at prehearing conferences. Unless other arrangements have been made, the Council will consider stipulations on the first hearing day

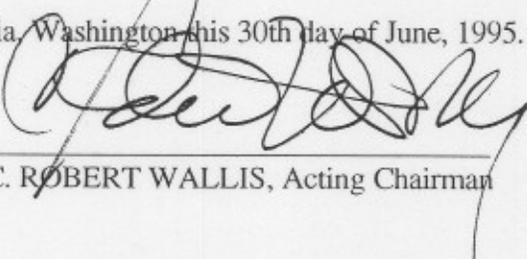

Post-hearing briefs. It was agreed that all parties desire the opportunity to file post-hearing briefs. The applicant will submit a draft order. Parties will have the opportunity to answer each others' briefs, although the precise process will be determined later.

North Coast Timber's intervention. The Council grants North Coast Timber's petition for intervention.

Bonneville Power Administration's intervention. The Council will reserve ruling on the Bonneville Power Administration's petition for intervention until the parties present a suitable explanation of why the Council should grant or deny BPA's request.

Prehearing Conference. A continued prehearing conference was scheduled for 2:00 p.m., on August 1, 1995, in Room 308 of the Energy Office headquarters.

DATED and effective at Olympia, Washington this 30th day of June, 1995.

C. ROBERT WALLIS, Acting Chairman

NOTICE TO PARTICIPANTS: Unless modified, this prehearing order will control the course of the hearing. RCW 34.05.431; WAC 463-30-270(3). Objections to this order may be stated to the Council only by filing them in writing with the Council within ten days after the date of this order. WAC 463-30-270(3).
