WASHINGTON PUBLIC POWER
SUPPLY SYSTEM

SATSOP COMBUSTION TURBINE
PROJECT

LU-1
Order Reopening Land Use
Consistency Hearing
Regarding Thurston County

685

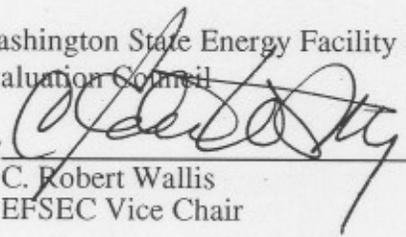

On December 19, 1994 the Energy Facility Site Evaluation Council entered order No. 670 finding the proposed Satsop Combustion Turbine Project and associated natural gas pipeline as described in Application No. 94-1 of the Washington Public Power Supply System (Supply System) inconsistent with the Thurston County Land Use Plans and Zoning Ordinance, specifically the portion of the pipeline propose to cross the Black Lake Ditch at the north end of Black Lake along the Black Lake-Belmore Road.

At the time of the order, the parties were conducting negotiations regarding the pipeline route and anticipated that they would resolve differences and come to an agreed settlement. Consequently, Council Order No. 670 allows any party to the land use hearing to petition the Council to reopen the record of the land use proceedings to receive further evidence regarding the propose project's consistency with the Thurston County Shoreline Master Program.

On August 1, 1995, the Supply System submitted a motion to reopen the land use consistency hearings. The motion contends that the Satsop Combustion Turbine Project is now consistent with all county and regional land use and zoning ordinances in Thurston County.

The petition is an action contemplated in the order, and is undertaken for a purpose contemplated in the order. The Council therefore grants the petition and reopens the hearing to receive further evidence regarding consistency of the project proposal with Thurston county land use requirements. A Notice of Hearing will be issued.

Dated at Olympia, Washington this 2nd day of August 1995.

Notice of Hearing
Reopened Land Use Consistency
Hearing Regarding Thurston County
(August 9, 1995)

On December 19, 1994 the Energy Facility Site Evaluation Council entered Order No. 670 finding the proposed Satsop Combustion Turbine Project and associated natural gas pipeline as described in Application No. 94-1 of the Washington Public Power Supply System (Supply System) inconsistent with the Thurston County Land Use Plans and Zoning Ordinance, specifically the portion of the pipeline proposed to cross the Black Lake Ditch at the north end of Black Lake along the Black Lake-Belmore Road. Council Order No 670 allows any party to the land use hearing to petition the Council to reopen the record of the land use proceeding to receive further evidence regarding the proposed project's consistency with the Thurston County Shoreline Master Program.

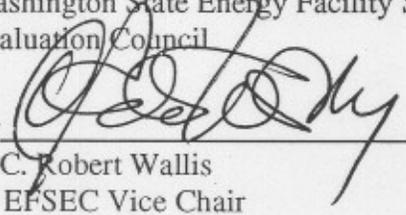

On August 1, 1995, the Supply System submitted a motion to reopen the land use consistency hearings. The motion contends that the Satsop Combustion Turbine Project is now consistent with all county and regional land use and zoning ordinances in Thurston County.

The Council has scheduled a reopened hearing to receive evidence regarding the project's consistency with Thurston County's land use plans and zoning ordinances for August 9, 1995 at 2:00 p.m. in Senate Hearing Room 3, of the John A. Cherberg Building located on the Capitol Campus in Olympia, Washington, or as soon thereafter as the matter may be heard.

Dated at Olympia, Washington this 2nd day of August 1995.
