

RESOLUTION NO. 232

WHEREAS, The Energy Facility Site Evaluation Council reviewed the application for and conducted case proceedings for the Washington Nuclear Projects 3 and 5; and

WHEREAS, As a result of those proceedings, the Council developed conditions regarding the siting, construction and operation of the project, and set forth those conditions in the Site Certification Agreement for WNP-3/5, executed on October 27, 1976, and amended on March 18, 1982; and

WHEREAS, The Council determined that it was appropriate and prudent to review the status of compliance with those Site Certification Agreement conditions; and

WHEREAS, During 1986, members and staff of the Council have reviewed the history and current status of compliance for the Site Certification Agreement conditions for WNP-3/5; and

WHEREAS, On May 1 and 2, 1986, members and staff of the Council visited the project site to verify conditions at the site and to verify compliance with Site Certification Agreement conditions;

NOW, THEREFORE, BE IT RESOLVED, That the Council finds that the attached list represents an accurate statement of compliance status for the several conditions in the WNP-3/5 Site Certification Agreement, as of May 19, 1986.

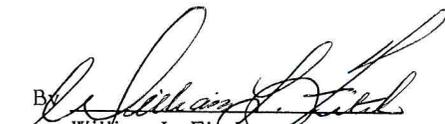

BE IT FURTHER RESOLVED, That Conditions III.D.2 and III.D.3 are declared satisfied with the understanding that erosion control requirements for any further construction activities that require excavation will be addressed via the Council resolutions approving or controlling those construction activities or construction areas.

Dated this 9th day of June 1986.
