

Chapter 3

Existing Conditions, Impacts, and Mitigation Measures

Introduction

This chapter describes existing conditions, impacts, and mitigation measures for the following elements of the environment:

- Section 3.1 – Air Quality (Greenhouse Gases)
- Section 3.2 – Groundwater Quality
- Section 3.3 – Groundwater Quantity
- Section 3.4 – Low-Frequency Noise
- Section 3.5 – Wetlands
- Section 3.6 – Flooding Potential
- Section 3.7 – Faulting and Seismicity
