Description of Proposal: Tesoro Savage Vancouver Energy Distribution Terminal Project, Application No. 2013-01, Docket No. EF-131590. Tesoro Savage Petroleum Terminal LLC (Applicant) is proposing to construct and operate the Tesoro Savage Vancouver Energy Distribution Terminal (Project). The proposed Project, at full operation, will receive up to an average of 360,000 barrels of crude oil per day from Midwest North America, at the Port of Vancouver in Clark County, WA. Crude oil received by rail will be unloaded on site, stored temporarily, then loaded onto marine vessels at the Project site, primarily for delivery to refineries located on the United States West Coast. More information concerning the proposed Project can be found at: www.efsec.wa.gov.

Land Use Consistency Hearing: A public hearing will be held as required by RCW 80.50.090 (2) and WAC 463-26-050, to determine if the proposed Project is consistent with local land use plans and zoning ordinances. The public will be given an opportunity to testify on the consistency and compliance of the proposed Project with land use plans and zoning ordinances. **Public comments on other aspects of the proposed Project will not be accepted during this hearing.**
