

Section 2.21 Potential for Future Activities at the Site

At this time, the Applicant does not have any plans for additions, expansions, or future activities within the proposed project boundary or on properties contiguous to the proposed project boundary. The lease between the Applicant and the Port allows for other activities by the Applicant, including handling of other petroleum products, receiving petroleum products at the Marine Terminal and expanding the Ffacility. The Applicant does not presently have plans to conduct these activities, nor does the Ffacility design support these activities. At this time, these activities are speculative and engineering and environmental information is not available to support permitting. If the Applicant chooses to modify the Ffacility to take advantage of the above-described allowances of the lease, an amendment to the Site Certification Agreement would be pursued through EFSEC.
