**Subject:** Reference Application No. 2013-01/Docket No. EF-131590: Please reject the proposed Tesoro Savage oil export terminal project

Dear Governor Inslee and Washington EFSEC:

The proposed Tesoro Savage oil export terminal is a boondoogle which will exacerbate the environmental damage already caused by fossil fuels. Our water systems are already suffering from profit-minded fossil fuel industry. May I remind you, Gov. Inslee, that the fossil fuel industry is always "johnny-on-the spot" with their exploitation of natural resources but always seem to drag their heels when a pipeline ruptures, a train loaded with coal, etc. derails & people's livelihood & health are threatened. Please remember Prince William Sound, which after 20+ years, has still NOT recovered from the Exxon Valdez oil spill. After carefully considering the safety, environmental, and climate risks associated with the project, I respectfully ask you to deny Tesoro Savage's application.

Thank you.

Lisbeth Caccese
