It would be unconscionable to go ahead with the Tesoro site lease after listening to the obviously anti-Tesoro sentiment and sensibility stressed so brilliantly and passionately last evening at Clark College. This huge throng of local people care deeply about the beautiful community they are blessed to be a part of in SW Washington. We all want to keep it that way and no amount of money will change that.

We were all fearful of this fabulous quality of life being jerked away from us for a fistful of greedy dollars from dirty crude oil. The negatives in allowing the Tesoro lease to move forward loom large.

Please do the right thing to guide our leaders to say 'no' to Tesoro in our community! Let's move forward to the future, not backward.

Thank you kindly,

Lynda and Ed Cunningham
