¹ The Council received a large number of prefiled exhibits late in the process, and unexpectedly received a large number of prefiled exhibits on the first morning of the hearing. That, coupled with limited resources at the hearing site, led to some uncertainty at points in the record regarding the status of exhibits, particularly those with a “c” suffix. This document is therefore proposed to be the definitive word on the status of exhibits.

² The transcript volume:page are shown where relevant. A=admitted; R=rejected and W=withdrawn. Documents that were offered but rejected remain part of the official record for review. Documents that were withdrawn before being offered are not included in the official record.

³ **PLEASE NOTE:** The descriptions are for identification only and have *absolutely no* substantive meaning or implication.

⁴ The Application was first sponsored, in part, through Mr. Spadaro. Ms. Chaney was its principal sponsor. For ease in reference, we have numbered the application as Ex. 20.00 and receive it through Ms. Chaney. A portion, sponsored by Mr. Spadaro, is subject to objection.

⁵ Ex. 111c through 1.19c were admitted, subject to possible motions to strike for limited reasons, at TR 63.

⁶ Exhibits 112c and 113c were also offered at 6:973; ruling at that point was unnecessary.

⁷ Ex. 117c was also offered at 9:1341
