Chapter 1	Summary	1-1
1.1	Introduction	1-1
1.2	Purpose and Need for the Project	1-1
1.2.1	Purpose and Need	1-1
1.2.2	Power Plant Purpose and Need	1-1
1.2.3	Transmission Line Purpose and Need	1-2
1.3	Decisions to be Made	1-3
1.4	Description of Alternatives	1-4
1.4.1	Proposed Action	1-4
1.4.2	No Action Alternative	1-6
1.4.3	Alternatives Considered	1-6
1.5	Summary of Public Involvement/Consultation/Coordination	1-7
1.6	Summary of Potential Impacts and Mitigation Measures	1-7
1.7	Cumulative Impacts	1-15
1.7.1	Global Warming	1-15
1.7.2	Regional Air Quality	1-15
1.7.3	Water	1-16
1.7.4	Natural Gas Supply	1-16
1.7.5	Transmission Lines and Natural Gas Pipelines	1-16
1.7.6	Transportation	1-17
1.7.7	Population and Housing	1-17
1.7.8	Cultural Resources	1-18
1.8	Issues to be Resolved	1-18
Chapter 2	Proposed Action and Alternatives	2-1
2.1	Introduction	2-1
2.1.1	The Applicant and Bonneville Power Administration	2-2
2.1.2	Purpose and Need	2-3
2.1.3	Decisions to be Made	2-5
2.2	Description of the Proposed Action	2-6
2.2.1	Project Location	2-6
2.2.2	Project Facilities	2-8
2.2.3	Construction Activities	2-18
2.2.4	Operation and Maintenance	2-27
2.2.5	Schedule and Workforce	2-29

2.2.6	Costs	2-31
2.2.7	Mitigation Measures Inherent in the Project Design	2-33
2.3	Alternatives	2-34
2.3.1	Other Alternatives	2-34
2.3.2	No Action Alternative	2-35
2.3.3	Alternative Tower Height and Longer Span Design	2-35
2.3.4	Alternative Alignment near McNary Substation	2-36
2.4	Alternatives Considered but Rejected	2-36
2.4.1	Alternative Generation Plant Locations	2-36
2.4.2	Alternative Generation Plant Designs	2-37
2.4.3	Alternative Power Generation Technologies	2-38
2.4.4	Cooling System Alternatives	2-40
2.4.5	Makeup Water Supply Alternatives	2-41
2.4.6	Alternative Transmission Line Routes	2-41
2.4.7	Site Access Alternatives	2-42
2.4.8	Alternative Natural Gas Pipeline Routes	2-44
2.5	Benefits or Disadvantages of Reserving Project Approval for a Later Date	2-44
2.6	Regulations and Permits	2-44
2.7	Coordination and Consultation with Agencies, Indian Tribes, the Public, and Nongovernment Organizations	2-47
Chapter 3 Existing Conditions, Impacts, and Mitigation Measures		3-1
3.1	Earth	3.1-1
3.1.1	Existing Conditions	3.1-1
3.1.2	Impacts of the Proposed Action	3.1-13
3.1.3	Impacts of Alternatives	3.1-23
3.1.4	Mitigation Measures	3.1-24
3.1.5	Significant Unavoidable Adverse Impacts	3.1-25
3.2	Air Quality	3.2-1
3.2.1	Existing Conditions	3.2-1
3.2.2	Impacts of the Proposed Action	3.2-6
3.2.3	Impacts of Alternatives	3.2-22
3.2.4	Mitigation Measures	3.2-22
3.2.5	Significant Unavoidable Adverse Impacts	3.2-24
3.3	Water Resources	3.3-1
3.3.1	Existing Conditions	3.3-1
3.3.2	Impacts of the Proposed Action	3.3-22

3.3.3	Impacts of Alternatives	3.3-35
3.3.4	Mitigation Measures	3.3-36
3.3.5	Significant Unavoidable Adverse Impacts	3.3-37
3.4	Wetlands and Vegetation	3.4-1
3.4.1	Existing Conditions	3.4-2
3.4.2	Impacts of the Proposed Action	3.4-9
3.4.3	Impacts of Alternatives	3.4-17
3.4.4	Mitigation Measures	3.4-18
3.4.5	Significant Unavoidable Adverse Impacts	3.4-18
3.5	Agricultural Crops and Livestock	3.5-1
3.5.1	Existing Conditions	3.5-1
3.5.2	Impacts of the Proposed Action	3.5-4
3.5.3	Impacts of Alternatives	3.5-9
3.5.4	Mitigation Measures	3.5-9
3.5.5	Significant Unavoidable Adverse Impacts	3.5-9
3.6	Wildlife	3.6-1
3.6.1	Existing Conditions	3.6-1
3.6.2	Impacts of the Proposed Action	3.6-8
3.6.3	Impacts of Alternatives	3.6-15
3.6.4	Mitigation Measures	3.6-15
3.6.5	Significant Unavoidable Adverse Impacts	3.6-15
3.7	Fisheries	3.7-1
3.7.1	Existing Conditions	3.7-1
3.7.2	Impacts of the Proposed Action	3.7-7
3.7.3	Impacts of Alternatives	3.7-11
3.7.4	Mitigation Measures	3.7-12
3.7.5	Significant Unavoidable Adverse Impacts	3.7-12
3.8	Energy and Natural Resources	3.8-1
3.8.1	Existing Conditions	3.8-1
3.8.2	Impacts of the Proposed Action	3.8-1
3.8.3	Impacts of the Alternatives	3.8-10
3.8.4	Mitigation Measures	3.8-11
3.8.5	Significant Unavoidable Adverse Impacts	3.8-11
3.9	Noise	3.9-1
3.9.1	Existing Conditions	3.9-1
3.9.2	Impacts of the Proposed Action	3.9-6
3.9.3	Impacts of Alternatives	3.9-12
3.9.4	Mitigation Measures	3.9-12

3.9.5	Significant Unavoidable Adverse Impacts	3.9-13
3.10	Land Use	3.10-1
3.10.1	Existing Conditions	3.10-1
3.10.2	Impacts of the Proposed Action	3.10-7
3.10.3	Impacts of the Alternatives	3.10-14
3.10.4	Mitigation Measures	3.10-15
3.10.5	Significant Unavoidable Adverse Impacts	3.10-15
3.11	Visual Resources/Light and Glare	3.11-1
3.11.1	Introduction	3.11-1
3.11.2	Existing Conditions	3.11-1
3.11.3	Impacts of the Proposed Action	3.11-11
3.11.4	Impacts of Alternatives	3.11-18
3.11.5	Mitigation Measures	3.11-19
3.11.6	Significant Unavoidable Adverse Impacts	3.11-19
3.12	Population, Housing, and Economics	3.12-1
3.12.1	Existing Conditions	3.12-1
3.12.2	Impacts of the Proposed Action	3.12-10
3.12.3	Environmental Justice	3.12-30
3.12.4	Impacts of Alternatives	3.12-31
3.12.5	Mitigation Measures	3.12-31
3.12.6	Significant Unavoidable Adverse Impacts	3.12-31
3.13	Public Services and Utilities	3.13-1
3.13.1	Existing Conditions	3.13-1
3.13.2	Impacts of Proposed Action	3.13-10
3.13.3	Impacts of Alternatives	3.13-21
3.13.4	Mitigation Measures	3.13-22
3.13.5	Significant Unavoidable Adverse Impacts	3.13-22
3.14	Cultural Resources	3.14-1
3.14.1	Existing Conditions	3.14-1
3.14.2	Impacts of the Proposed Action	3.14-9
3.14.3	Impacts of Alternatives	3.14-12
3.14.4	Significant Unavoidable Adverse Impacts	3.14-12
3.15	Traffic and Transportation	3.15-1
3.15.1	Existing Conditions	3.15-1
3.15.2	Impacts of Proposed Action	3.15-7
3.15.3	Impacts of Alternatives	3.15-22
3.15.4	Mitigation Measures	3.15-22
3.15.5	Significant Unavoidable Adverse Impacts	3.15-23

3.16	Health and Safety	3.16-1
3.16.1	Existing Health and Safety Risks	3.16-1
3.16.2	Impacts of the Proposed Action	3.16-2
3.16.3	Impacts of Alternatives	3.16-23
3.16.4	Mitigation Measures	3.16-23
3.16.5	Significant Unavoidable Adverse Impacts	3.16-23
3.17	Cumulative Impacts	3.17-1
3.17.1	Background	3.17-1
3.17.2	Air Quality	3.17-2
3.17.3	Water Resources	3.17-21
3.17.4	Gas Supply	3.17-23
3.17.5	Electrical Transmission Lines	3.17-24
3.17.6	Natural Gas Pipelines	3.17-26
3.17.7	Transportation, Population, and Housing	3.17-27
3.17.8	Cultural Resources	3.17-28
3.18	Relationship Between Short-Term Uses of the Environment and the Maintenance and Enhancement of Long-Term Productivity	3.18-1
3.19	Irreversible or Irrecoverable Commitments of Resources	3.19-1
Chapter 4	References	4-1
Chapter 5	Acronyms	5-1
Chapter 6	List of Preparers	6-1
Chapter 7	EIS Distribution List	7-1
Index		
Appendix A Mitigation Measures Inherent in the Project Design		
Appendix B Wetland, Wildlife, and Botanical Resource Reports		
Appendix C Additional Information on Geology and Seismicity in the Project Vicinity		
Appendix D Visual Assessment Methodology		
Appendix E Cultural Resources Technical Report		
Appendix F EMF Report		

List of Tables

Table		Page
1-1	Potential Impacts of the Wallula Power Project	1-9
2-1	Proposed Access Roads along the New Transmission Line	2-24
2-2	Average Construction Workforce (3-Month Periods)	2-29
2-3	Estimated Project Costs	2-32
2-4	Overview of Permit, Approval, and Consultation Requirements for Wallula Power Project	2-45
3.2-1	Ambient Air Quality Standards	3.2-4
3.2-2	Maximum 24-Hour and Annual Average PM10 Concentrations, Wallula PM10 Monitoring Station	3.2-6
3.2-3	Annual Emissions During On-Site Construction (Tons Per Year)	3.2-6
3.2-4	Wallula Power Project – Facility Criteria Pollutant Emissions Summary	3.2-9
3.2-5	Wallula Power Project Toxic Air Pollutant Emissions Summary	3.2-11
3.2-6	Annual PM10 Emissions	3.2-12
3.2-7	Maximum Modeled Short-Term Criteria Pollutant Concentrations	3.2-13
3.2-8	Maximum Modeled Annual Average Criteria Pollutant Concentrations	3.2-14
3.2-9	Maximum Modeled Toxic Air Pollutant Concentrations	3.2-14
3.2-10	Results of Class I Increment Analysis	3.2-16
3.2-11	CALPUFF Annual Deposition Analysis Results (Total Annual Wet Plus Dry Deposition)	3.2-17
3.2-12	Modeled Regional Haze Impacts	3.2-18
3.3-1	General Characteristics of Project Site Irrigation Ponds	3.3-2
3.3-2	General Characteristics of Water Bodies along the Transmission Line Right-of-Way	3.3-5
3.3-3	Chemical Analyses of Supply Water (mg/L)	3.3-9
3.3-4	Key Basalt Units and Structures	3.3-10
3.3-5	Land and Water Rights Purchase Options	3.3-17

3.3-6	Optioned Water Rights Versus Maximum Expected Water Demand	3.3-18
3.3-7	Wallula North and South Fiber Farm Purchase Options Water Rights	3.3-20
3.3-8	J.R. Simplot Company Water Rights Purchase and Lease Options	3.3-20
3.4-1	Vegetation Types along Transmission Line Right-of-Way	3.4-7
3.4-2	Estimated Impacts from Tower and Conductor Construction	3.4-13
3.5-1	Cultivated Acreage by Key Crop, Walla Walla and Umatilla Counties	3.5-1
3.5-2	Livestock Numbers for Walla Walla and Umatilla Counties	3.5-4
3.6-1	Impacts to Wildlife Habitats Resulting from Tower and Conductor Construction	3.6-11
3.7-1	Summary of Threatened, Endangered, and Species of Concern Fish for the Project Vicinity and Nearby Waters	3.7-2
3.7-2	Potential Fisheries Habitat Locations along the Right-of-Way	3.7-4
3.8-1	Forecasted Natural Gas Reserves	3.8-5
3.8-2	GTN Pipeline Expansion Plans	3.8-6
3.8-3	Northwest Pipeline Expansion Plans	3.8-6
3.8-4	Average Annual Water Supply System Chemical Use	3.8-8
3.8-5	Other Anticipated Annual Fuel and Consumable Materials Usage	3.8-9
3.9-1	Common Sound Levels/Sources and Subjective Human Responses	3.9-2
3.9-2	State of Washington Noise Regulations (173-60-040 WAC)	3.9-3
3.9-3	Recorded Sound Level Ranges	3.9-6
3.9-4	Typical Construction Equipment Noise	3.9-7
3.9-5	Wallula Power Project Noise Sources	3.9-9
3.9-6	Modeled Power Plant Sound Levels at Receptors	3.9-10
3.10-1	Summary of Plans, Policies, and Regulations and their Relationship to the Proposed Project	3.10-16
3.10-2	Description of Recreational Facilities in the Vicinity of the Proposed Project	3.10-25
3.10-3	Right-of-Way Land Use Types and Acreage	3.10-31
3.10-4	Impacts to Land Use Types from Tower and Conductor Construction	3.10-31

3.11-1	Description of Key Viewpoints and Summary of Impacts for the Generation Plant Site	3.11-20
3.11-2	Description of Key Viewpoints and Summary of Impacts for Transmission Line Right-of-Way	3.11-22
3.12-1	Study Area and State Populations, 1980-2000	3.12-2
3.12-2	Study Area Population Projections, 2000-2015	3.12-3
3.12-3	Study Area Population Age Distribution, 2000	3.12-4
3.12-4	Study Area Sex and Race Composition, 2000	3.12-4
3.12-5	Study Area Housing Statistics, 1990-2000	3.12-5
3.12-6	Labor Force and Unemployment, 1990 and 2000	3.12-6
3.12-7	Walla Walla County Sales Tax Rates, 2000	3.12-9
3.12-8	Taxable Retail Sales in Study Area Counties, 1995-1999 (\$1,000s)	3.12-9
3.12-9	Walla Walla County Property Tax Rates, 2000	3.12-10
3.12-10	Power Plant Construction Workforce by Trade	3.12-12
3.12-11	Estimated Local Versus Nonlocal Wallula Power Project Construction Worker Origin	3.12-14
3.12-12	Project Nonlocal Construction Employment Duration of Need (Months)	3.12-15
3.12-13	Estimated Sales Tax Revenues from Wallula Power Project Construction	3.12-19
3.12-14	Estimated Wallula Power Project Operation and Maintenance Staffing	3.12-25
3.12-15	Hypothetical Annual Property Tax Revenue During Project Operation ¹	3.12-27
3.13-1	Resources of Walla Walla County Fire District 5	3.13-3
3.13-2	Benton-Franklin County Medical Services	3.13-6
3.13-3	Columbia School District Student Population, 2000–2001 School Year	3.13-7
3.13-4	School District Student Population, 2000/2001 School Year	3.13-8
3.15-1	U.S. Highway 12 Average Daily Traffic, 1995 through 1999	3.15-2
3.15-2	Variation Factor for Seasonal Differences	3.15-3
3.15-3	Existing Level of Service, Intersection of U.S. Highway 12 and Dodd Road	3.15-4
3.15-4	Trip Frequency for Construction Employment and Deliveries	3.15-8

3.15-5	Employee Arrival/Departure Estimate, Peak Construction Period	3.15-9
3.15-6	Total Peak Hour Construction Trips during Heaviest Month of Construction (Employees plus Deliveries)	3.15-9
3.15-7	Construction Peak LOS/Delay	3.15-9
3.15-8	Power Plant Employment Profile	3.15-15
3.15-9	Future Levels of Service/Delay (2004)	3.15-18
3.15-10	MUTCD Signal Warrants	3.15-19
3.15-11	Possible Signal Warrant Attainment	3.15-19
3.16-1	Anticipated Hazardous Chemical Use and Onsite Storage Capacity	3.16-11
3.17-1	Cumulative Impacts Associated with Northwest Power Plants	3.17-3
3.17-2	Typical CO ₂ Emission Factors for Electrical Generating Stations	3.17-7
3.17-3	Comparison of Worldwide vs. Local Greenhouse Gas Emissions	3.17-8
3.17-4	Peak Emissions with Primary Fuel, All Sources in Phase I Study	3.17-11
3.17-5	Maximum Concentration Predictions (ug/m ³)*	3.17-12
3.17-6	Maximum Annual Deposition (Wet + Dry) Flux*	3.17-14
3.17-7	Number of Days with Greater than 5% Change to Background Extinction*	3.17-15
3.17-8	7000 MW Baseline Source Group: Peak Emissions with Primary Fuel	3.17-16
3.17-9	Contribution of the Wallula Power Project (By Itself) to Regional Haze Firing by Primary Fuel	3.17-18
3.17-10	Number of Days with Greater than 5% Change to Year 2001 Background Extinction: Cumulative Impact of Entire 7000 MW Baseline Source Group	3.17-19
3.17-11	Number of Days with Greater than 10% Change to Year 2001 Background Extinction Cumulative Impact of Entire 7000 MW Baseline Source Group	3.17-19
3.17-12	Proposed and Existing Power Plants with Water Supplies Hydrologically Linked to the Columbia River above the Bonneville Dam	3.17-22
3.17-14	Typical Right-of-Way Widths of BPA Transmission Lines	3.17-24
3.17-15	G-9 Transmission Line Infrastructure Projects	3.17-25

List of Figures

Fig. Number	Title	Follows Page
2-1	Site Location	2-2
2-2	Wallula-McNary Transmission Line Project	2-2
2-3	Generation Plant Layout	2-8
2-4	Proposed Water and Gas Pipelines	2-12
2-5	Configurations for the Proposed Wallula-McNary 500 kV Line	2-14
2-6	Smiths Harbor Switchyard Site Plan Details Plan View	2-16
2-7	Approach to McNary Substation for Proposed Action	2-36
2-8	Alternative Approach to McNary Substation	2-36
3.1-1	Generalized Geologic Structure Map of the Central Columbia Plateau	3.1-4
3.1-2	Major Historical Pacific Northwest Earthquakes	3.1-4
3.1-3	Historical Seismicity of the Columbia River Plateau	3.1-4
3.1-4	Topography of the Plant Site and Pipelines	3.1-6
3.1-5a	General Geologic Map	3.1-6
3.1-5b	Legend for General Geologic Map	3.1-6
3.1-6	Subsurface Profile of the Project Site	3.1-6
3.1-7	Basalt Surface Elevation Map of the Project Area	3.1-6
3.1-8	Project Area Geologic Profile	3.1-6
3.1-9	Site Grading Plan	3.1-14
3.2-1	Cooling Tower Plume Visibility	3.2-20
3.2-2	Annual Hours of Cooling Tower Plume Fogging	3.2-20
3.2-3	Salt Deposition from Cooling Tower Plume	3.2-22
3.3-1	Project Vicinity, Topography, and Well Locations	3.3-2
3.3-2	Flood Potential	3.3-8
3.3-3	Potentiometric Surface Map for On-Site Gravel Aquifer in 2001	3.3-12
3.4-1a	Wetland and Vegetation Map of Project Site	3.4-2
3.4-1b	Key to Vegetation Map Codes	3.4-2
3.4-2	Vegetation Map of Project Laterals	3.4-6
3.8-1	Natural Gas Sources and Transportation	3.8-2

3.9-1	Map of Sound Measurement Locations	3.9-4
3.10-1	Land Use in a 5-Mile Radius Area Surrounding the Wallula Power Plant Project	3.10-4
3.11-1	Viewpoint Analysis Locations	3.11-21
3.11-2a	View 1: Looking South from East of U.S. Highway 12 without the Power Plant	3.11-21
3.11-2b	View 1: Looking South from East of U.S. Highway 12 with a Simulated Power Plant View	3.11-21
3.11-3a	View 2: Looking East from U.S. Highway 12 East without the Power Plant	3.11-21
3.11-3b	View 2: Looking East from U.S. Highway 12 East with a Simulated Power Plant View	3.11-21
3.11-4a	View 3: U.S. Highway 12 Northeast from near the Project Site Construction Access Road without the Power Plant	3.11-21
3.11-4b	View 3: U.S. Highway 12 Northeast from near the Project Site Construction Access Road with a Simulated Power Plant View	3.11-21
3.11-5a	View 4: Looking North from U.S. Highway 12 from the Overpass near the Boise Cascade Corporation Wallula Mill without the Power Plant	3.11-21
3.11-5b	View 4: Looking North from U.S. Highway 12 from the Overpass near the Boise Cascade Corporation Wallula Mill with a Simulated Power Plant View	3.11-21
3.11-6a	View 5: Looking East from the McNary National Wildlife Refuge Spit of Land without the Power Plant	3.11-21
3.11-6b	View 5: Looking East from the McNary National Wildlife Refuge Spit of Land with a Simulated Power Plant View	3.11-21
