January 14, 2009

Dear Reader:

Enclosed for your reference is the abbreviated form Final Supplemental Environmental Impact Statement (FSEIS) for the proposed Wild Horse Wind Power Project. This document is designed to supplement or correct information provided in the Draft Supplemental Environmental Impact Statement (DSEIS) issued in November 2008. The proponent, Puget Sound Energy, has requested to expand the Wild Horse Wind Power Project by constructing and operating an additional twenty-two wind turbines that would generate an additional 44 megawatts of wind power in Kittitas County, Washington. The expanded project adds an additional 960 acres to the 8,600-acre site north of Vantage Highway at Whiskey Dick Mountain, roughly 11 miles east of the City of Kittitas.

The Wild Horse Wind Power Project was approved by Governor Gregoire in July 2005 and has been operating since early 2007. Modification of the Site Certification Agreement (the permit to construct and operate the project) must be approved by the Washington Energy Facility Site Evaluation Council (EFSEC) through Chapter 463-66 WAC.

After initial public comment Puget Sound Energy requested EFSEC prepare a Supplemental EIS to review potential environmental impacts from their project expansion. EFSEC agreed and a DSEIS was issued for public comment on November 12, 2008. The public comment period closed on December 15, 2008. EFSEC received 10 written comment letters.

This abbreviated form FSEIS supplements and/or corrects information provided in the DSEIS. It was prepared from information received from agencies, organizations, and individuals who submitted comments on the DSEIS. Chapter 3 of the FSEIS contains the revisions to the DSEIS. Chapter 4 includes copies of the written comments concerning the DSEIS, as well as responses prepared by the FSEIS authors to the written comments and testimony.

Please note: The word “grouse” was inadvertently left out on page 5, first bullet. The first bulleted should read as follows:

- Potential impacts to greater sage grouse habitat and regional populations

For further information regarding this proposal or to request additional copies of this FSEIS, you may contact Tammy Talburt at (360) 956-2121. The FSEIS is also accessible on the Internet at www.efsec.wa.gov.

A handwritten signature in black ink, appearing to read "Allen J. Fiksdal". The signature is fluid and cursive, with the first name "Allen" and last name "Fiksdal" clearly distinguishable.
