

### **1.3 DECISIONS TO BE MADE**

This Application for Site Certification document will be used by EFSEC to develop a draft Environmental Impact Statement (DEIS) and to review the proposed Project.

EFSEC has jurisdiction over all of the evaluation and licensing steps for siting major energy facilities in the State of Washington. Once approved by the Governor, EFSEC's Site Certification Agreement acts as an "umbrella" authorization that incorporates the requirements of all State laws and regulations. Through its review EFSEC coordinates the comments and interests of State agencies that participate in the EFSEC review process. EFSEC will issue the Final Environmental Impact Statement (FEIS) and make a recommendation to the Governor to approve or deny the Wild Horse Wind Power Project.
