

## Chapter 7

# LIST OF PREPARERS

The lead agency for the Wild Horse Wind Power Project Draft EIS is EFSEC. The Draft EIS was written with the technical assistance of Jones & Stokes, with HDR Engineering, Inc. and GeoEngineers, Inc. contributing. Individuals responsible for preparing the EIS are listed below. All authors contributed to the cumulative impacts section of the EIS for their respective resources.

Jan Aarts—Project Director, Jones & Stokes. Responsible for preparation of offsite alternatives analysis. Twenty years of experience in project management, NEPA/SEPA compliance, and environmental planning. Education: B.A. and M.A Urban Planning.

Jeannie Brush—Planner, Jones & Stokes. Responsible for preparation of the land use, population, and public services sections of the EIS. Five years of experience in environmental planning and policy analysis with an emphasis on land use, and historic architecture. Education: B.A. History, M.S. Historic Preservation.

Jason Cooper—Cultural Resource Specialist, Jones & Stokes. Responsible for preparation of the cultural resources section of EIS. Thirteen years of experience in archaeology and cultural resource inventory and permitting. Education: B.A. History; M.A. Anthropology/Archaeology.

Brian Higgins—Restoration Specialist, Jones & Stokes. Responsible for preparation of the visual section of the EIS. Four years experience in restoration with expertise in landscape architecture, open space and recreational planning, and watershed management. Education: B.S. Sociology, M.A. Landscape Architecture.

Judith Hillis—Botanist/Ecologist, Jones & Stokes. Responsible for EIS management, and preparation of the vegetation and wetlands, off-site alternatives analysis, and summary sections of the EIS. Five years of experience in EIS documentation and NEPA/SEPA compliance with expertise in plant and wetland ecology. Education: B.S. Botany; B.S. Ecology, Evolution, and Conservation Biology.

Jonathan Ives—Project Director, Jones & Stokes. Responsible for preparation of the off-site alternatives analysis and the project description and alternatives, and cumulative impact sections of the EIS. Thirty years of experience in the management of environmental studies for public works infrastructure projects, energy and wastewater projects, and NEPA/SEPA documents. Education: B.A. Wildlife Management; M.S. Wildlife Biology.

Kai Ling Kuo—Transportation Planner, Jones & Stokes. Assisted with preparation of traffic section in the EIS. Three years of experience in transportation planning, traffic modeling and analysis, and signal design and analysis. Education: B.S. Civil Engineering; M.S. Civil and Environmental Engineering.

Ron Loewen—Traffic Engineer, Jones & Stokes. Responsible for preparation of the traffic section of the EIS. Thirty-five years of experience in project management, design of road projects, traffic engineering, and capital facilities plans. Education: B.S. Civil Engineering.

Michael McNabb—Fisheries Biologist, Jones & Stokes. Responsible for preparation of the water resources, fisheries, and energy sections of EIS. Ten years of experience in salmonid ecology and water quality, stream characterization, and construction monitoring. Education: B.S. Fisheries.

Herbert “Bert” Pschunder—Senior Geotechnical Engineer, GeoEngineers, Inc. Responsible for preparation of the earth resources and groundwater sections of the EIS. Twenty-five years experience in geotechnical engineering. Education: B.S.E. Geological Engineering, M.E. Engineering.

Mike Stimac—Manager, Licensing and Environmental Services, HDR Engineering, Inc. Responsible for preparation of the health and safety section of EIS. More than 30 years of experience in energy facility siting and licensing, environmental program design, NEPA/SEPA EIS preparation, and regulatory compliance. Education: B.S. Electrical Engineering; M.S. Fisheries. Licensed Nuclear Engineer.

Heidi Tate—Wildlife Biologist, Jones & Stokes. Responsible for preparation of the wildlife section of the EIS and assisted with preparation of the off-site alternatives sections of the EIS. Twelve years of experience in NEPA/SEPA wildlife analysis, threatened and endangered species, and habitat evaluation. Education: B.S. Wildlife Biology.

James Wilder—Air/Noise Specialist, Jones & Stokes. Responsible for preparation of air quality and noise sections of the EIS. Twenty-five years of experience in air quality and noise control engineering, facility design, preconstruction permitting, environmental impact assessments, and operational compliance monitoring. Education: B.S. Civil Engineering; M.S. Air Resources Engineering.
