**Subject:** Reference Application No. 2013-01/Docket No. EF-131590: Please reject the proposed Tesoro Savage oil export terminal project

Dear Governor Inslee and Washington EFSEC:

I urge you to assess the full impact of Tesoro Savage's proposal to ship 360,000 barrels of oil each day through Spokane, the Columbia River Gorge National Scenic Area, Vancouver and the Columbia River. Oil-by-rail and export by ship is a bad deal for Washington State and the entire Northwest region. The project comes at a steep price for rail and river communities throughout the state and along the Columbia River, yet offers few jobs in return. Based on the far reaching impacts of this project, I urge you to deny Tesoro Savage's unprecedented proposal.

The public safety and environmental impacts of the state's largest pipeline-on-wheels proposal deserve close scrutiny. For example, EFSEC must assess:

- The potential impacts of a large train-related oil spill along the rail route in Washington and beyond.
- The transportation and public health impacts of additional unit train traffic through communities along the proposed oil-by-rail route. This includes evaluating emergency response capabilities in Vancouver, where oil trains would deliver and store oil, and other communities along the rail and shipping route.
- The increased risk of an oil tanker spill on Washington State waters and along the shipping route.
- The project's impact on climate change. This analysis should include climate change impacts from crude oil as well as tar sands oil from cradle to grave.

After carefully considering the safety, environmental, and climate risks associated with the project, I respectfully ask you to deny Tesoro Savage's application.

Thank you.

claudia ciucci

**Subject:** Reference Application No. 2013-01/Docket No. EF-131590: Please reject the proposed Tesoro Savage oil export terminal project

Dear Governor Inslee and Washington EFSEC:

SIR, I AM A WASHINGTON VOTER LIVING IN BRITISH COLUMBIA BECAUSE OF A JOB. HAVE BEEN HERE LONG ENOUGH TO KNOW HOW DAMAGING THIS KEYSTONE PIPELINE, THESE TAR SANDS, ARE. THERE HAS BEEN AT LEAST 27 LEAKS AND CONSEQUENT SPILLS IN THE LAST YEAR ALONE. WHERE THERE WAS ONCE CLEAN GRASSLANDS AND FARMS, THERE ARE NOW GOVT. CORDONED OFF AREAS SO LARGE AND SO POISONOUS THAT THEY CANNOT USE THOSE AREAS FOR MILES AROUND AGAIN. FOR THIS REASON, B.C. AND THE OTHER PROVINCES WILL NOT ALLOW THE PIPELINE TO CROSS THEIR LANDS. IT IS WHY CANADA MUST TRY TO GET THE U.S. TO TRANSPORT FOR THEM. PLEASE, SIR, LOOK CAREFULLY AT THIS PROJECT. FOLLOW THE PROBLEMS ALONG THE LINE TO CANADA. CONTACT PEOPLE WHO KNOW WHAT IS HAPPENING UP HERE. NOT POLITICIANS FROM ALBERTA SINCE THAT WOULD BE LIKE ASKING A TEXAN TO SHOW YOU THE BEAUTY OF AN OIL RIG. NO, TRY TALKING TO SOMEONE LIKE DR. DAVID SUZUKI. HE'S CANADA'S MOST EMINENT SCIENTIST AND I KNOW YOU WOULD BE ENLIGHTENED BY HIM AND GAIN THE TRUTH. SIR, THIS IS A BAD IDEA. OUR BEAUTIFUL COLUMBIA RIVER BASIN HAS ALREADY BEEN DAMAGED ENOUGH BY THE NUCLEAR RUN OFF FROM WOOPS AND THE OTHER PLANTS ALONG HER LENGTH. WASHINGTON DOES NOT, I'M SURE, WANT TO SEE IT TURNED INTO A DEAD ZONE BECAUSE OF TAR SANDS THAT CANNOT BE CLEANED UP BUT DROP TO THE BOTTOM OF THE RIVER AND MUST BE SCRAPED UP. IMPOSSIBLE MISSION TO BE SURE. THANK YOU FOR TAKING TIME AND EFFORT TO SEE THAT OUR BEAUTIFUL STATE AND IT'S WATER WAYS ARE PROTECTED.

I urge you to assess the full impact of Tesoro Savage's proposal to ship 360,000 barrels of oil each day through Spokane, the Columbia River Gorge National Scenic Area, Vancouver and the Columbia River. Oil-by-rail and export by ship is a bad deal for Washington State and the entire Northwest region. The project comes at a steep price for rail and river communities throughout the state and along the Columbia River, yet offers few jobs in return. Based on the far reaching impacts of this project, I urge you to deny Tesoro Savage's unprecedented proposal.

**Subject:** Reference Application No. 2013-01/Docket No. EF-131590: Please reject the proposed Tesoro Savage oil export terminal project

Dear Governor Inslee and Washington EFSEC:

I urge you to assess the full impact of Tesoro Savage's proposal to ship 360,000 barrels of oil each day through Spokane, the Columbia River Gorge National Scenic Area, Vancouver and the Columbia River. Oil-by-rail and export by ship is a bad deal for Washington State and the entire Northwest region. The project comes at a steep price for rail and river communities throughout the state and along the Columbia River, yet offers few jobs in return. Based on the far reaching impacts of this project, I urge you to deny Tesoro Savage's unprecedented proposal.

The public safety and environmental impacts of the state's largest pipeline-on-wheels proposal deserve close scrutiny. For example, EFSEC must assess:

- The potential impacts of a large train-related oil spill along the rail route in Washington and beyond.
- The transportation and public health impacts of additional unit train traffic through communities along the proposed oil-by-rail route. This includes evaluating emergency response capabilities in Vancouver, where oil trains would deliver and store oil, and other communities along the rail and shipping route.
- The increased risk of an oil tanker spill on Washington State waters and along the shipping route.
- The project's impact on climate change. This analysis should include climate change impacts from crude oil as well as tar sands oil from cradle to grave.

After carefully considering the safety, environmental, and climate risks associated with the project, I respectfully ask you to deny Tesoro Savage's application.

Thank you.

Elise Marcheff
