Comment subject/Issue: Desert Claim proposal

Comment:
As a resident of Ellensburg since 2003 we have enjoyed the sunny days and the country lifestyle our current location gives us,

For years we attended meetings to show our opposition to the proposed siting of a wind "farm" being pushed up to our property lines. When the governor forced the EFSEC committee to approve the Desert Claim site despite the objections of the County Council and the neighbors we saw our property values drop. As older residents both retired and semi-retired property values, a way of life and stress factors need to be addressed.
