Dear Ms. Moon

**Subject: REVISED COLUMBIA GENERATING STATION  
DEHALOGENATION CHEMICAL FEED PROJECT ENGINEERING REPORT**

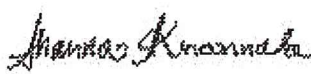

Energy Northwest is submitting the attached revised Engineering Report for the dehalogenation chemical feed project for the Columbia Generating Station. This revision is being submitted to address the Washington State Department of Ecology's comments generated during their Engineering Report review on June 19, 2018. This Engineering Report meets the requirements of Washington Administrative Code (WAC) 173-240-130 for industrial wastewater treatment facilities.

Energy Northwest appreciates the time and effort that EFSEC and Ecology has spent reviewing and commenting on this project.

If you have any questions regarding the revised Engineering Report, please contact WK Whitehead at (509) 377-8794.

Sincerely,

06/09/18 14:34:49 -07:00

X
