Subject: **REQUEST FOR CLOSURE OF EFSEC ORDER NO. 875**

Reference: EFSEC Order No. 875, dated November 25, 2015

In accordance with condition 2.4.2 in the referenced Order, Energy Northwest has completed the decommissioning of the Columbia Generating Station (CGS) Storm Drain Pond (SDP) by filling the channel and pond to grade using clean soil and covering with rock. This letter serves as a report of closure per Washington Administrative Code (WAC) 246-247-080(6). As long as the SDP is covered, it is no longer a source of radioactive air emissions. Enclosed is a picture of the CGS SDP, taken on August 31, 2016.

If you have any questions, please contact Mary C. Ramos at (509) 377-8534.

Respectfully,

Robert R. Nielson
Environmental and Regulatory Programs Manager
