Re: Recommendation to Close Energy Facility Site Evaluation Council (EFSEC) Order No. 875 (Storm Drain Pond Decommissioning Emission Unit License)

Mr. Posner:

Pursuant to Chapter 246-247-080(6) of the Washington Administrative Code (WAC), Energy Northwest has submitted a report of closure for the activity associated with the storm drain pond decommissioning. We concur that the emission unit for the storm drain pond decommissioning is no longer a source of radioactive air emissions and should be closed. This letter serves as a recommendation that EFSEC order No. 875 (which issued the radioactive air emissions license for the decommissioning of the storm drain pond) be closed.

If you have any questions regarding this recommendation, please contact Mr. Randy Utley at randell.utley@doh.wa.gov or by phone (509) 946-0534.

Sincerely,

P. John Martell, Manager
Radioactive Air Emissions Section
