	Page 9		Page 11
1	Miller. I'm the plant manger at the PacifiCorp Chehalis	1	site-specific comments on the draft conditions for any
2	Generation Facility. I have one nonroutine comment to	2	potential site-specific impacts.
3	make today. Last month, we had an inspection from the	3	While the draft SCAs are in works, Staff,
4	Washington State Department of Labor & Industries for	4	the Applicant, and the Ecology wetlands section are
5	our annual boiler certification pressure vessel	5	coordinating the remaining review of potential impacts
6	inspection, and he noted no issues. We have not	6	to wetlands at the proposed facilities. The Applicant
7	received the final report. I suspect that EFSEC Staff	7	is working to accommodate site access for Ecology to
8	will be receiving that and get it relayed to us via	8	complete any remaining field surveys that Ecology may
9	Staff. Are there any questions?	9	wish to conduct. And once Ecology's review is complete,
10	CHAIR DREW: Are there any questions?	10	any additional recommended mitigation will be
11	Hearing none, thank you.	11	identified. This additional review is for further
12	MR. MILLER: All right. Thanks.	12	refinement of the Wetlands Mitigation Measure No. 6 I
13	CHAIR DREW: Desert Claim project update,	13	identified in the MDNS. Any questions?
14	Ms. Bumpus?	14	CHAIR DREW: Are there any questions?
15	MS. BUMPUS: Thank you. So EFSEC Staff has	15	Okay. Ms. Bumpus, did you want to give a
16	been reviewing the public comments received during the	16	further update on the process?
17	public hearing in Ellensburg. This was on	17	MS. BUMPUS: Yes, Chair Drew, I did. So I
18	April 11th, 2018. We also received Data Request 1	18	wanted to talk about time frames, so just piggy-backing
19	response from the Applicant on April 16, and we're	19	on what Ms. Kidder just said. For the draft SCAs that
20	reviewing both of those.	20	we're preparing, there are five for each of the sites,
21	In light of that review, we've compiled Data	21	we expect to have these finished by the end of the
	Request No. 2 for the Applicant. That went to them last	22	month. Our target date for issuing those drafts for
22	week, and we've requested additional information		public comment is early June. We would hold a 30-day
23		23	
24	specific to the proposed changes to the SCA. For	24	public comment period during June, and in late June, our
25	example, we've asked for information about noise for the	25	target is to have a public comment meeting in Ellensburg
	Page 10		Page 12
1	taller and larger turbines, new construction access road	1	on those five draft SCAs.
2	impacts, and the added land area. So we're waiting	2	In the public notice for the SCAs and the
3	to awaiting that information now, and we also are	3	public comment meeting, EFSEC will request input from
4	planning to go out to the site on May 30th. So Staff	4	the public on those SCAs and for any other information
5	will go out, look at the site. We're also bringing a	5	about site-specific conditions, for example, those that
6	wetlands expert from Ecology that's going to go with us.	6	may address concerns relating to rural character. We
7	And we're also planning a council meeting site visit	7	understand this is a concern, and any information on
8	around the end of June. So more details about that, but	8	this topic should be helpful, we think, in finalizing
9	we know that Councilmembers have expressed an interest	9	the SCAs.
10	in going to see the site. Probably the week around	10	While we are still working out the details
11	the week of June 25th.	11	of how we will conduct the public meeting in Ellensburg,
12	CHAIR DREW: Okay. Any questions?	12	so there is more to follow on that, for now we plan to
13	Thank you.	13	have five separate sign-up sheets for each of the five
14	Columbia Solar Project, Ms. Kidder?	14	sites and the SCAs so that the speakers attending the
15	MS. KIDDER: Good afternoon, Chair Drew and	15	meeting can sign up and voice their specific concerns
16	Councilmembers. I have an update for you on the	16	about each site distinctively. We think this will also
17	Columbia Solar Project. Since the last meeting, EFSEC	17	help the Council in following the information as they
18	Staff has been working with the Applicant on drafting	18	receive it at the meeting. We're still considering
19	site certification agreements. As mentioned in last	19	other ways to tune this meeting so that we can gather
	month's meeting, the Applicant is drafting five separate	20	more information that is, again, site-specific.
20			Another item I wanted to follow up on is
21	SCAs, one for each proposed facility, to allow for	21	
22	site-specific conditions.	22	that we did talk about meeting with Kittitas County.
23	Once complete, Staff will release these	23	And after some email exchanges, we sent a letter
24	drafts for public comment period, at the end of which	24	pressing to meet with the County, and they did respond
25	Staff proposes to hold a public meeting to receive	25	to us in early May declining to meet; however, they did

Verbatim Transcript of Monthly Council	-
1 let us know that they do intend to to comr	Page 13 hent as they 1 Department of Ecology finished conducting their annual
.	
4 comment period would close in early July, a	
5 July, August time frame, we would use that	
6 update the SCAs in light of those comments	
7 also use that time to prepare a draft recomm	
8 order, and in September, Council would pla	
9 Ellensburg to take a vote on the recommend	
10 governor. So that's sort of just high-level or	
1 what we anticipate in the coming months fo	
12 project.	12 provided to Councilmembers at the end of April to begin
CHAIR DREW: And if if we find th	
goes more quickly, we can also adjust the s	
15 that right?	15 additional information that came about as a result of
MS. BUMPUS: Correct.	16 that review.
CHAIR DREW: Thank you.	17 We want to thank you for your questions and
Are there any questions from the Co	
MR. STEPHENSON: I have one qu	estion. 19 probably answered most of those questions. If there are
CHAIR DREW: Mr. Stephenson?	20 any remaining questions at this time, I'd like to
MR. STEPHENSON: Thank you. V	/e've talked 21 introduce Mark Goodin, Scott Inloes, and Mark Crooks,
about this as one project versus multiple project versus versus multiple project versus vers	jects, and 22 who are these three gentlemen sitting here. Scott
I just want to understand what our concept	s now. It 23 Inloes and Mark worked to prepare the Draft PSD Permit
seems to me that looking at it this way give	us the 24 that you reviewed, and they worked for quite a while
most flexibility, but I thought it would be a g	25 with Jim LaSpina and the Facility to develop Amendment
	Page 14 Page 1
1 chance to talk about that.	1 4.
2 CHAIR DREW: Okay. So from my p	erspective, 2 So we're thankful that they're here to help
$_{\rm 3}$ $$ what we heard from the public is that, since t	hey are 3 us answer any questions that you may have before we ask
4 located on separate properties that are not p	hysically 4 you to take action on this permit. So if there are any
5 connected and have some different character	ristics, that 5 questions, I'll go ahead and ask them to move up, but if
6 the public wanted an opportunity to look at	6 not, I'll proceed with our request.
7 site-specific conditions. So that's why we have	ve chosen 7 CHAIR DREW: Are there any questions?
8 to move forward with the five separate site	8 Mr. Stephenson?
9 certification agreements. And, in fact, and I	vould 9 MR. STEPHENSON: Thank you. As the Ecology
L0 check with our legal counsel, but the Council	would have 10 person on EFSEC, I have checked with, on my side of the
1 the flexibility how to condition those and what	11 firewall, our folks on this, and I'm confident that
12 recommendation to make on each one of the	se sites; is 12 they've done a good job on the permitting on this. So
	13 thank you for doing a good job on that.
13 that correct?	
	14 CHAIR DREW: Okay. Thank you.
MR. THOMPSON: Correct.	
MR. THOMPSON: Correct. CHAIR DREW: Okay. And that was

1	Page 17 on the phone. I'll second that. I'd like to make a	1	Page 19 CERTIFICATE
1 2	couple comments before we vote.	2	GERTHTOATE
∠ 3	CHAIR DREW: Okay. Please, go ahead.	∠ 3	STATE OF WASHINGTON
3 4	MR. ROSSMAN: Thanks. Yeah, I was one of	4	COUNTY OF THURSTON
	the members that had questions, a number of which were	4 5	
5	resolved before the meeting, but they were just having		I, Tayler Garlinghouse, a Certified Shorthand
6	to deal with making sure I was understanding what the	6	Reporter in and for the State of Washington, do hereby
7	limits on in the permit were and how those related to	7	certify that the foregoing transcript is true and
8	sulfur emissions. One comment that I had was that there	8	accurate to the best of my knowledge, skill and ability.
9	are some sections of the permit that feel confusing to	9	
10		10	
11	me and that they're written in sort of a future tense	11	
12	and describe things that should happen before the	12	Touter Carlinghouse, CCD 2259
13	turbines are operational or or that things should be	13	Tayler Garlinghouse, CCR 3358
14	installed during construction at the Facility. And, you	14	
15	know, those are events that happened a number of years	15	
16	ago at this point.	16	
17	So it was difficult for me working through	17	
18	it. So I'm fine with putting it out for comment in this	18	
19	state. I think if the if we hear from others in the	19	
20	public that they also were confused by any of those	20	
21	things, I'd like to see about maybe finding ways to make	21	
22	it clearer. But I appreciate that this has been a long	22	
23	time coming, and Staff worked hard to get us at this	23	
24	point. So I'm ready to see it move forward from here.	24	
25	CHAIR DREW: Okay. Well, we will certainly	25	
	Page 18		
1	take your comments into consideration and look at the		
2	language based on that, so thank you.		
3	Any other comments or discussion? All those		
4	in favor of the motion to approve the Draft Permit for		
5	public comment please say "Aye."		
6	COUNCILMEMBERS: Aye.		
7	CHAIR DREW: All those opposed? Motion		
8	carries.		
9	Thank you very much for that, and thank you		
10	to Staff and the staff of Ecology and the Air Agency for		
11	all of your work in putting this together and certainly		
12	the Facility as well, because I know that there have		
13	been a lot of changes over the past few years. And now		
14	that EFSEC does have the authority to actually permit		
15	this without it going through EPA, I think that makes it		
16	a little more straightforward process for us.		
17	So we're very pleased to have that that		
18	authority from EPA. So I know that a lot of people took		
19	a lot of time and energy and work into it, and we will		
20	see what the public has to say and then come back after		
21	that 30-day period is over. Thank you.		
22	And at this point, we have no other issues		
23	to come before EFSEC Council, so the meeting is		
24	adjourned. Thank you.

Verbatim Transcript of Special Meeting - 6/13/2018

	Page 5		Page 7
1	MR. MCMAHAN: Yeah, Tim McMahan on behalf of	1	MS. MASTRO: Fish and Wildlife?
2	TUUSSO.	2	MR. LIVINGSTON: Mike Livingston, aye.
3	CHAIR DREW: Okay. Thank you.	3	MS. MASTRO: Natural Resources?
4	MS. WARNER: This is Kara Warner at Golder	4	MR. SIEMANN: Dan Siemann, aye.
5	Associates.	5	MS. MASTRO: Utilities and Transportation
6	CHAIR DREW: Thank you.	6	Commission?
7	MR. ELLIOT: Ian Elliot, Kittitas County.	7	MS. FRIEDLANDER: Marguerite Friedlander,
8	CHAIR DREW: Oh, hello.	8	aye.
9	MR. ELLIOT: Hello.	9	MS. MASTRO: Department of Health?
10	MR. THOMPSON: Jon Thompson with the	10	MS. COOPER: Kelly Cooper, aye.
11	Attorney General's Office.	11	MS. MASTRO: Kittitas County?
12	CHAIR DREW: Okay. Thank you.	12	MR. ELLIOT: Ian Elliot, aye.
13	Our proposed agenda, it has just one item on	13	MS. MASTRO: Chair?
14	it and that's the Columbia Solar Project. And I will	14	CHAIR DREW: Aye.
15	ask Ms. Bumpus to give us an explanation of what we have	15	Okay. Thank you. That motion has passed,
16	before us.	16	and that is all that comes before us today. So with
17	MS. BUMPUS: Thank you. Good afternoon,	17	that, we are adjourned. Thank you all.
18	Chair Drew and Councilmembers. Councilmembers, as you	18	(Adjourned at 1:34 p.m.)
19	know, we are planning to have a public meeting, public	19	
20	comment meeting on June 26th in Ellensburg on the five	20	
21	draft site certification agreements for the proposed	21	
22	TUUSSO Columbia Solar Project. Pursuant to WAC	22	
23	463-43-080, the current deadline for reviewing the	23	
24	application and making a recommendation to the governor	24	
25	on the proposal is June 16th.	25	
	Page 6		Page 8

6	Solar Project Application 2017-01.	6	I, Tayler Garlinghouse, a Certified Shorthand
7	CHAIR DREW: Okay. You've heard the	7	Reporter in and for the State of Washington, do hereby
8	information. Is there does somebody want to have a	8	certify that the foregoing transcript is true and
9	motion to approve this request for the extension of the	9	accurate to the best of my knowledge, skill and ability.
10	application review?	10	
11	MR. STEPHENSON: Chair Drew, this is Cullen	11	
12	Stephenson. I will move to do that extension.	12	Jayler Gorlinghouse_
13	CHAIR DREW: Okay.	13	Tayler Garlinghouse, CCR 3358
14	MS. FRIEDLANDER: I will second that. This	14	
15	is Marguerite Friedlander.	15	
16	CHAIR DREW: Okay. It's been moved and	16	
17	seconded.	17	
18	I will now ask if there are any questions or	18	
19	comments or discussions? Okay. All those in favor of	19	
20	approving this extension say "aye," and please identify	20	
21	yourself. I think I will ask for a roll call for that.	21	
22	MS. MASTRO: Department of Commerce?	22	
23	MR. ROSSMAN: Jaime Rossman, aye.	23	
24 25	MS. MASTRO: Department of Ecology?	24 25	
40	MR. STEPHENSON: Cullen Stephenson, aye.	20

	2 5.00 P.IVI. 3000
	4
	5
WASHINGTON STATE	6 MS. DREW: Okay. Good evening. I'm going
ENERGY FACILITY SITE EVALUATION COUNCIL	7 to call to order the meeting of the Energy Facility Site
Kittitas Valley Event Center 901 East Seventh Avenue	8 Evaluation Council this evening and I am Kathleen Drew
Ellensburg, Washington	 and I'm the chair.
June 26, 2018	10 And I would ask the other council members
5:00 p.m.	11 to introduce themselves.
	12 MR. STEPHENSON: My name is Cullen
PUBLIC HEARING	13 Stephenson. I am Department of Ecology's representative
Columbia Solar Proposed Draft SCA Notice	14 to EFSEC.
Verbatim Transcript of Proceeding	15 MR. ROSSMAN: I'm Jaime Rossman. I'm
	16 Department of Commence's representative.
	17 MR. SIEMANN: And I'm Dan Siemann. I'm the
REPORTED BY: PHYLLIS CRAVER LYKKEN, RPR, CCR NO. 2423	18 Department of Natural Resources' representative to
Buell Realtime Reporting, LLC.	19 EFSEC.
1325 Fourth Avenue	20 MS. DREW: Thank you all for being here.
Suite 1840	21 I wanted to make a couple of introductory
Seattle, Washington 98101	22 remarks. First of all, I want to make sure you all are
206.287.9066 Seattle	aware the council is not going to deliberate and make a
360.534.9066 Olympia 800.846.6989 National	24 decision tonight on whether to recommend the governor
www.buellrealtime.com	25 approve or reject the certification of these sites.
Page 2	Page 4
1 APPEARANCES:	1 The main purpose of tonight's meeting is
2 KATHLEEN DREW, EFSEC CHAIR	2 really to give the public members an opportunity for
CULLEN STEPHENSON, DEPARTMENT OF ECOLOGY	3 oral comments
3 JAIME ROSSMAN, DEPARTMENT OF COMMERCE	4 Is this is anyone having trouble hearing
DAN SIEMANN, DEPARTMENT OF NATURAL RESOURCES SONIA BUMPUS, EFSEC STAFF	5 me? Okay.
JOAN AITKEN, EFSEC STAFF	6 (continuing) to receive comments on the
5	7 Draft Site Certification Agreements which were prepared
б	8 by EFSEC staff. And these were prepared so that the
7	9 public could have an opportunity for site-specific
8	10 comments on these different agreements. So that's what
9	11 we're looking for this evening.
10 11	12 We've already had an opportunity on both
11 12	13 the application and the SEPA threshold document. And
13	14 this is really to provide the public with an opportunity
14	15 to comment in a similar way as you might on a
	16 conditional use hearing with the council. It's not the
15	17 same process, but it would be the same kind of
16	
16 17	18 information that you would give us for each site. And
16 17 18	information that you would give us for each site. Andthat's why we have structured it in this way.
16 17 18 19	 information that you would give us for each site. And that's why we have structured it in this way. We do have a written comment period that
16 17 18 19 20	 information that you would give us for each site. And that's why we have structured it in this way. We do have a written comment period that will remain open until June 29th.
16 17 18 19	 information that you would give us for each site. And that's why we have structured it in this way. We do have a written comment period that will remain open until June 29th. Since we only have four or five speakers at

	Page 5		Page 7
1	thoughts.	1	cases, these are, you know, very similar.
2	With that, I will ask Sonia Bumpus to talk	2	As an example, four of the sites have water
3	about our process as we move forward after this meeting	3	rights requirements, so you can look in Attachment 1 and
4	tonight.	4	see that. Fumaria does not have it. And so if you, you
5	MS. BUMPUS: Thank you. Good afternoon,	5	know, get a chance to look at Attachment 1, you'll see
б	Chair Drew and council members.	6	some differences and that's just one of them. So I just
7	So just a couple of things. Chair Drew,	7	wanted to go over that to get council familiar with the
8	you've already talked about the comment period started	8	Site Certification Agreements organization to help
9	on May 29th and it ends on Friday, June 29th.	9	facilitate your review as you're hearing comments from
10	So before we get started, I just wanted to	10	the public.
11	talk a little bit about what's in your binders in front	11	MS. DREW: Are there any questions from
12	of the council. These are the five Draft Site	12	council members?
13	Certification Agreements that have been out for public	13	Okay. Hearing none, why don't we go ahead
14	comment since the 29th of May. And I'm going to just go	14	and ask oh, I want to make one more comment, and that
15 16	over what the contents of those are and talk a little	15 16	is that after the public comment period if council
17	bit about the Attachment 1. So each of the Site Certification	17	members have any questions of staff, then we're going to allow that to happen for clarification or other
18		18	purposes. Okay?
19	Agreements contains a site description in Article I. Article II includes definitions.	19	MS. BUMPUS: Yes.
20	Article III general conditions.	20	THE CLERK: We're ready for our first
21	And then in Article IV there are plans and	21	speaker, Ron Slater.
22	approvals that are required prior to construction. So,	22	MR. SLATER: Good evening. My name is
23	for instance, the initial site restoration plans	23	Ronald Slater, 1531 Masterson Road, Cle Elum,
24	submittal requirements are identified there. Just to	24	Washington.
25	name one as an example.	25	I own or represent almost 400 acres of
	Раде б		Page 8
1	For Article V these are project	1	non-irrigated land. Non-irrigated. I offered that land
2	construction requirements. So for instance, they're	2	to the same corporation that's here tonight to try to
3	required to have an environmental monitor onsite during	3	get approval through you. The exact words to me were
4	the construction phase of the project.	4	we're not interested in non-irrigated land.
5	This section also talks about stop work	5	There is a message there. They want soft
6	orders where if there is an issue identified that's	6	digging, they want to be close to all of the convenient
7	unresolvable, the environmental monitor can request that	7	power lines that people, the taxpayers, have paid for,
8	EFSEC put in a stop work order to cease work until the	8	and they want to start dissecting this valley right
9	issue is resolved.	9	across and eliminating agricultural operations.
10	Article VI covers submittals required prior	10	Several years ago a lot of us lost our
11	to the beginning of the operation of the facility.	11	water in this county through the state suing the county
12	Article VII is project operations. So for	12	for water to preserve these agricultural lands. The
13	instance, technical advisory committee is one of the	13	county lost and so did I. Can't drill a well. If I
14 15	requirements in each of the Site Certification Agreement drafts.	14 15	wanted to put water in it's 600 and some thousand bucks.
16	In Article VIII, this covers project	16	This operation of going to you, the state, and avoiding the county is an absolute injustice to the
17	termination, decommissioning, and site restoration. So	17	people that created this county and created all of the
18	this is where there is information about the	18	ag you see from the air. There are thousands and
19	requirements for a detailed site restoration plan and	19	thousands of acres, you should know, on all four sides,
20	the timeline for submittal of that.	20	north, south, east, and west, of non-irrigated quality
21	And then we have Article IX, which is	21	land that is available to utilize for solar. But as
22	signatures.	22	long as they're allowed to go to you and bypass the
23	Now, each of the Site Certification	23	county, they're going to come right down here into this
24	Agreements also has an Attachment 1. And Attachment 1	24	great agricultural family and they're going to destroy
25	covers specific conditions for that site. And in some	25	it. You're going to start the beginning of a cancer.

2 (Pages 5 to 8)

Verbatim Transcript of Public Hearing - Columbia Solar Proposed Draft SCA Notice - 6/26/2018

	Page 9		Page 11
1	Thousands and thousands of individuals are	1	don't biodegrade. You can't put a magic pixie dust on
2	dependent upon this valley's agricultural operation for	2	them and make them go away. There has to be a good plan
3	their income. If you impair it, if you handicap it, if	3	and it can be well thought out in advance. Well thought
4	you start dissecting it, you're going to see a	4	out in advance and not just in the 90 days after they
5	checkerboard disaster where we won't be able to recover.	5	decide to close down.
6	Once ag land is taken, you'll never get it back. We	6	Thank you very much.
7	also never get the water back.	7	MS. DREW: Thank you.
8	It's quite clear that they want the land to	8	THE CLERK: Speaker No. 3, Dick Carkner.
9	be used for solar, while at the same time you defended	9	MR. CARKNER: Good evening, council
10	them, got them all of the water that we had taken from	10	members. My name is Dick Carkner and I'm with the Save
11	us, with the same breath they want to kill the grass,	11	Our Farms group.
12	put in solar, and have it completely eliminated for ag.	12	I must say that I'm wondering why we're
13	This is an absolute blatant hypocrisy.	13	actually having this meeting. We've noted this in
14	As an environmentalist, you should know	14	previous correspondence with you. What I'd like to do
15	this is a disaster to all of the crops that have been so	15	in the three minutes or so I have is basically go
16	refined in this valley. Don't let them do it. All	16	through a bullet list that brings to mind the details I
17	they've got to do is go through the county. And again,	17	have in the materials that I'm going to leave with you
18	there are significant alternatives to where they can	18	that has a little more explanation, a little more, a
19	house these solar panels by the thousands of acres that	19	little more information to support the ideas that I'm
20	are available in non-irrigated land.	20	airing.
21	Thank you for listening.	21	So according to your order dated April 17,
22	THE CLERK: Speaker No. 2, Mary Monahan.	22	you directed your staff to develop a process that is,
23	MS. MONAHAN: My name is Mary Monahan and I	23	quote, akin to what the county would use during a
24	am a resident of Kittitas County. I have been since	24	conditional use hearing. You mentioned that at the
25	2010.	25	beginning of our meeting tonight.
	Page 10		Page 12
1	l'm also a scientist, a hazardous waste	1	Such a process must allow the public to
2	cleanup scientist, and in reading these Site	2	inform a hearing examiner and that would occur during a
3	Certification Agreements I've noticed first of all,	3	conditional use process. Such a process must allow the
4	let me say words matter. Words matter to me a lot. The	4	public to inform the hearing examiner about the errors
5	model Toxics Control Act has a lot of really good words	5	in your determination of non-significance. This must
6	that matter a lot.	6	happen before site certification discussions. At this
7	These Site Certification Agreements are	7	point, we feel that site certification is premature.
8	missing some words. When it comes to the site	8	An expedited process has to meet two
9	restoration paragraphs, it only mentions removal, it	9	conditions. One, environmental impacts must be
10	doesn't mention proper disposal or recycling or anything	10	mitigated to a non-significant level; and two,
11	like that when it comes to dismantling of these solar	11	consistency with County land use plans.
12	facilities. Which leaves a lot of room open for where	12	Your order of April 2018 meets neither of
13	is it going to go. I mean, what's going to happen to	13	these requirements. Also, your order does not meet the
14	it? Is it going to be dumped on somebody's, in	14	minimum state standard required for the Administrative
15	somebody's junkyard, is it going to be are the costs	15	Procedures Act. In brief, this act requires defining
16	going to be deemed prohibitive to take over to the west	16	procedures for seeking reconsideration for
17	side or to Arlington for proper recycling? I really	17	administrative relief.
18	think that the plan for site restoration really needs to	18	Your process is not consistent with county
19	be fleshed out much more than it is.	19	land use plans. A conditional use permit requires
20	And site restoration means much more than	20	review and a hearing process.
21	just removal of the facilities. The components that go	21	Further, the proposal is not essential to
22	into making these solar panels are heavy metals. They	22	the public convenience so it is not consistent with
23	do not degrade naturally. Something must be done. You	23	local land use. The economic benefits to the proposed
24	need to remove the soils and the things that have been	24	use, of the proposed use, do not offset the economic
25	contaminated by them and properly dispose of them. They	25	detriment.

Verbatim Transcript of Public Hearing - Columbia Solar Proposed Draft SCA Notice - 6/26/2018

	Page 17		Page 19
1	What is being threatened is the rights of other farmers	1	again kicked the can down the road by extending the
2	to lease or sell parts of their farms to the solar	2	solar moratorium again for six months. And this goes
3	energy project.	3	back from January of last year. I say let's go.
4	I have heard on a number of occasions,	4	Thank you.
5	including the League of Women's Voters forum a few weeks	5	THE CLERK: That's all of the speakers we
6	ago, that once agricultural land is translated and	6	have.
7	transferred over to a solar installation, it would be	7	MS. DREW: Those are all of the speakers we
8	impossible to return it to agricultural production and	8	have signed up.
9	I'm eager to see the evidence of that.	9	Do the council members have any questions
10	A previous speaker mentioned other places	10	for staff? I think my mic is on. Question.
11	that would say it's impossible or very expensive. I've	11	MR. ROSSMAN: I have one question.
12	seen only one place where they've actually had specific	12	MS. DREW: Mr. Rossman.
13	cost elements or cost estimates, and that was in	13	MR. ROSSMAN: I'm I have one question,
14	Calexico, California, where they were breaking it down	14	which is I'm seeing a number of these the cultural and
15	very detailed at about \$3,500 an acre for restoring to	15	agricultural and archaeological resources planning is
16	the agricultural uses to which it had been converted	16	going to be done through DAHP, and I just wanted to get
17	from which it had been converted.	17	clarification. Is that something that we're going to
18	Can agricultural land be restored? I think	18	issue working with the DAHP or would they issue that
19	it can. But another question is who is likely to want	19	themselves?
20	to do that 20 or 30 years hence when the solar	20	MS. BUMPUS: She wants to know what page
21	installation has lived its useful life? Does anybody	21	are you referring to.
22	really think we're going to need less power 20 or 30	22	MR. ROSSMAN: I'm sorry.
23	years from now than we do now? My suspicion would be	23	MS. BUMPUS? Is that page 22 for the Camas
24	that if the panels outlive their usefulness 20 or 30	24	site, for instance?
25	years from now, the people would want to install new	25	MR. ROSSMAN: Yes.

1 2 3 4 5 6 7 8	go back to the application. MS. BUMPUS: Okay. Did you have a specific stanza you were looking at where that was? MR. ROSSMAN: I can go through. MS. BUMPUS: Sure. MR. ROSSMAN: Will do. Thank you. MS. BUMPUS: Thank you. MS. DREW: Any other comments or questions?	1 2 3 4 5 6 7	C E R T I F I C A T E STATE OF WASHINGTON)) ss. COUNTY OF YAKIMA) I, Phyllis Craver Lykken, Certified Court Reporter do hereby certify that the foregoing transcript is true and accurate to the best of my knowledge, skill and
9 10 11 12 13 14	I would like to ask that we take another look at the site restoration and make sure that we're looking at the disposal as more than just the removal, but also the recycling and the disposal and address the issues that were raised. MS. BUMPUS: We will take another look at	8 9 10 11 12 13 14	ability. IN WITNESS WHEREOF, I hereunto set my hand and seal this 10th day of July, 2018. PHYLLIS CRAVER LYKKEN, RPR,
15 16 17 18 19 20 21 22 23 24 25	that, Chair Drew. And I was looking as I was listening to comments, and there is mention of the ISRP addressing salvaging equipment, so we'll take another look at that. MS. DREW: Just make sure that we have that clearly identified. That would be great. One other question I have is there were comments about soil restoration. Can you remind me what the process was, if we received that in the comments on the MDNS and what we have done to take a look at that issue? MS. BUMPUS: Yes. So we did consult with	15 16 17 18 19 20 21 22 23 24 25	CCR NO. 2423
	Page 22		
1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	the Washington Department of Agriculture on that and we had some comments from them. We talked to our consultant about the issue and we went back and looked at the application and talked to the applicant. And they are proposing to do restoration of the soil when they decommission the site. And so there would be some amount of soil amendments, possibly, that they would do to ensure that the soil is put back to its previous condition. MS. DREW: Thank you. Any other comments? We appreciate everyone's participation tonight and look forward to your continued participation as we take our next steps. Thank you very much. MEETING CONCLUDED AT 6:07 P.M.)

Marion Gonzalez East Cascade Realty Keller Williams 1100 Dexter Ave North Seattle, WA 98107

RE: Shadow flicker letter sent by Marion Gonzalez (the "Realtor") to Sagebrush Power Partners, LLC ("Kittitas Valley") on April 11, 2018 (the "Letter")

Dear Ms. Gonzalez,

Kittitas Valley is in receipt of Realtor's letter requesting mitigation measures for possible shadow flickering on lot 5 (the "Property"). The Property is adjacent to Kittitas Valley's wind power generating facilities with over 3,500 between between its center and the nearest wind turbine. There are no structures on the Property.

Kittitas Valley has reviewed Realtor's request in conjunction with the relevant sections of Kittitas Valley's Site Certification Agreement with the State of Washington's Energy Facility Site Evaluation Council (the "SCA"). Pursuant to the SCA, Kittitas Valley is not obliged to undertake the requested shadow flicker mitigation measures.

Kittitas Valley understands that Realtor may receive questions regarding the Property's proximity to the Project's wind generating facilities and would be happy to address any concerns that arise. Please feel free to contact me directly at <u>david.nutt@edpr.com</u> or 713-356-2493. Kittitas Valley values its neighbors and looks forward to maintaining these strong relationships for years to come.

Kittitas Valley Wind Power Project Monthly Operations Report

June 2018

Project Status Update

Production Summary:

Power generated:39,647 MWhWind speed:9.5 m/sCapacity Factor:54.6%

Safety: No incidents

Compliance: Project is in compliance

> Sound: No complaints

Shadow Flicker: No complaints

Environmental: No incidents

Kittitas Valley Wind Power Project Monthly Operations Report

May 2018

Project Status Update

Production Summary:

Power generated:31,729 MWhWind speed:9.4 m/sCapacity Factor:42.3%

Safety:

No incidents

Compliance:

Project is in compliance

Sound:

No complaints

Shadow Flicker:

Request from Realtor to curtail turbine B6 from casting shadow flicker on an empty lot. The lot in question has no structure (receptor) and Google maps tells us it's >2,500ft away from this turbine (3,324ft).

Request denied - see attached letter

Environmental: No incidents

Wild Horse Wind Facility

May & June 2018

Safety

No lost-time accidents or safety injuries/illnesses.

Compliance/Environmental

According to the TAC Rules of Procedures, the TAC is required to meet once per calendar year unless additional or fewer meetings are agreed to by majority vote of the TAC members. In lieu of a meeting this year, PSE proposed to provide the 2018 annual TAC update by email this year due to a couple of factors; 1) The likelihood that EFSEC would not have a new TAC facilitator until later this year, and 2) There are no significant updates or actions requiring TAC consideration at this time. The TAC voted by email 7-2 in favor of PSE's motion to provide an update to the TAC via email in lieu of holding an in-person meeting in 2018. The email update will be sent to TAC members by July 20th.

Operations/Maintenance

Nothing to report.

Wind Production

May generation totaled 34,813 MWh for an average capacity factor of 17.16%. June generation totaled 61,963 MWh for an average capacity factor of 31.57%.

Eagle Update

The final draft of the Eagle Conservation Plan and revised draft Environmental Assessment (EA) was submitted to the U.S. Fish and Wildlife Service on January 23, 2018. Next steps are for the USFWS to review and provide input/revisions to the EA prior to the public review and comment period. After public review and comment, USFWS will make a determination of whether to issue an eagle incidental take permit.

EFSEC Monthly Operational Report

June 2018

- 1. Safety and Training
 - 1.1. There were no accidents or injuries during the month of June.
 - 1.2. Conducted scheduled and required monthly training.
 - 1.3. Conducted the scheduled Safety Committee meeting.
- 2. Environmental
 - 2.1. On May 24, an on-site review of Grays Harbor Energy Center (GHEC) was completed by Ramboll as part of a 3rd party environmental audit.
 - 2.2. Relative Accuracy Test Audit (RATA) testing dates were firmed up for August 15-17.
- 3. Operations & Maintenance
 - 3.1. GHEC operated 14 days during the month of June with 13 starts on U1 and 11 starts on U2. Plant capacity factor was 33%.
 - 3.2. GHEC generated 147,287MWh during the month of June.
 - 3.3. PSD Amendment 4 suggested effective date September 1st, implementing PSD Amendment 4 changes.
 - 3.4. All routine reporting completed.
- 4. Noise and/or Odor

4.1. None.

- 5. Site Visits
 - 5.1. None.
- 6. Other
 - 6.1. Grays Harbor Energy Center is staffed with 21 personnel.

EFSEC Monthly Operational Report

May 2018

- 1. Safety and Training
 - 1.1. There were no accidents or injuries during the month of May.
 - 1.2. Conducted scheduled and required monthly training.
 - 1.3. Conducted the scheduled Safety Committee meeting.
- 2. Environmental
 - 2.1. On May 24, an on-site review of Grays Harbor Energy Center (GHEC) was completed by Ramboll as part of a 3rd party environmental audit.
- 3. Operations & Maintenance
 - 3.1. GHEC operated 5 days during the month of May with 6 starts on U1 and 4 starts on U2. Plant capacity factor was 7.1%.
 - 3.2. GHEC generated 32,669MWh during the month of May.
 - 3.3. The annual outage ended May 14 (scheduled April 28 May 15).
 - 3.4. The annual update of the Spill Prevention Control and Countermeasure Plan (SPCC) was completed on May 22.
 - 3.5. Waiting on the PSD Amendment 4 public comment period to end.
- 4. Noise and/or Odor

4.1. None.

- 5. Site Visits
 - 5.1. None.
- 6. Other
 - 6.1. Grays Harbor Energy Center is staffed with 21 personnel.

Energy Northwest EFSEC Council Meeting July 2018 Operations Report Mary Ramos

Columbia Generating Station Operational Status

Columbia is online at 100 percent power and producing 1144 MWs.

Evaporation Pond Line Break:

On June 4, 2018, Columbia discovered a PVC pipe failure at the facility's evaporation ponds near cistern no. 1. Cistern no. 1 is located between evaporation pond 1B and evaporation pond 2. The failed pipe caused a portion of the hillside to be washed out and some of the soil to be deposited into evaporation pond 2. It was estimated that the water line began leaking at approximately 2:30 PM on June 4th and the flow was isolated the same day at approximately 4:30 PM. The water released contained backwash water from the potable water filter plant, reverse osmosis filtrate, and fire test water and is permitted (under Columbia's NPDES permit) to be utilized for construction water or road watering. Therefore, the water released was not radiologically contaminated and did not result in a threat to human health or the environment. There was no release to surface water.

Energy Northwest notified EFSEC of the event via phone and email on June 5, 2018 and submitted a follow-up written notification on June 7, 2018. Energy Northwest is working with a vactor truck service contractor to determine the extent of damage on July 9, 2018 and plans to complete the repairs by mid-July 2018. The minimal amount of sediment which was deposited into evaporation pond 2 will be removed during late summer 2018 when the pond water level decreases. The sediment will be placed into the original barrow source.

Evaporation Pond Use of Chemicals for Algae Control:

Columbia will be updating the Operations & Maintenance Manual for the facility's evaporation ponds to allow the use of chemicals for control of algae and emergent vegetation. Columbia will be sending to EFSEC a letter containing the revised language and a request for EFSEC concurrence.

WNP 1/4 Building Transfer/Water

No change from March 2018 Operations Report

NEPA/Leasing:

Energy Northwest's new lease with the Department of Energy for WNP 1/4 went into effect on July 1, 2017. We have started the planning and some field work on the water distribution system project, which will eventually utilize the Water Rights permit granted by the Department of Ecology.

Energy Northwest EFSEC Council Meeting May 2018 Operations Report Debbie Knaub

Columbia Generating Station Operational Status

Columbia is online at 100 percent power and producing 1144 MWs.

Six Day Forced Outage in May:

Columbia experienced a six-day forced outage last month when one of the station's main power transformers automatically disconnected from the transmission system following a grid disturbance. The transformer's protection system sensed an issue and initiated a trip signal, which resulted in a main generator trip that took the plant offline on May 18, 2018. Columbia reconnected to the grid on May 24, 2018. During the forced outage, maintenance was performed on relays and valves in the main transformer and plant.

Reduced Power Level Response to BPA Economic Dispatch Request: High water levels currently flowing through the federal hydroelectric system from spring runoff have resulted in a surplus of generation in the region. Columbia operated at the 65 percent power level from May 24 through early June 10 to support an economic dispatch request from the Bonneville Power Administration.

Columbia Reinstatement to Top Performance Category: The Columbia Generating Station has been reinstated to the top performance level for public safety and was notified by the NRC that it had retroactively rated Columbia Generating Station in the top performance category.

WNP 1/4 Building Transfer/Water

No change from March 2018 Operations Report

NEPA/Leasing:

Energy Northwest's new lease with the Department of Energy for WNP 1/4 went into effect on July 1, 2017. We have started the planning and some field work on the water distribution system project, which will eventually utilize the Water Rights permit granted by the Department of Ecology.

Chehalis Generation Facility 1813 Bishop Road Chehalis, Washington 98532 Phone: 360-748-1300

Chehalis Generation Facility----Monthly Plant Report – June 2018 Washington Energy Facility Site Evaluation Council

07.01.2018

Safety:

• There were no recordable incidents this reporting period and the plant staff has achieved 1058 days without a Lost Time Accident.

Environment:

- There were no air emissions or stormwater deviations or spills during the month.
- Wastewater and Stormwater monitoring results were in compliance with the permit limits.

Operations and Maintenance Activities:

• The Plant generated 192,059 MW-hours in June for a 2018 YTD generation total of 712,587 MW-hours and a capacity factor of 31.99%.

Regulatory/Compliance:

• Nothing to report this period.

Sound monitoring:

• Nothing to report this period.

Carbon Offset Mitigation:

• Nothing to report this period.

Respectfully,

1 Ul Quelle

Mark A. Miller Manager, Gas Plant Chehalis Generation Facility

Chehalis Generation Facility----Monthly Plant Report – May 2018 Washington Energy Facility Site Evaluation Council

06.01.2018

- Safety:
 - There were no recordable incidents this reporting period and the plant staff has achieved 1028 days without a Lost Time Accident.

Environment:

- There were no air emissions or stormwater deviations or spills during the month of May 2018.
- Wastewater and Stormwater monitoring results were in compliance with the permit limits.

Operations and Maintenance Activities:

- The Plant generated 95,017 MW-hours in May for a 2018 YTD generation total of 520,528 MW-hours and a capacity factor of 23.37%.
- The Plant completed a 24 day Outage to conduct a borescope inspection of both combustion turbines, upgrade the combustion turbine controls to GE Mark 6e, install new inlet air filters and replace expended nitrogen oxide control catalyst in both heat recovery steam generators. There were no significant findings during this Outage.

Regulatory/Compliance:

• Nothing to report this period.

Sound monitoring:

• Nothing to report this period.

Carbon Offset Mitigation:

• Nothing to report this period.

Respectfully,

Ulle

Mark A. Miller Manager, Gas Plant Chehalis Generation Facility

Energy Facility Site Evaluation Council

Non Direct Cost Allocation for 1st Quarter FY 2019 July 1, 2018 – September 30, 2018

The EFSEC Cost Allocation Plan (Plan) was approved by the Energy Facility Site Evaluation Council in September 2004. The Plan directed review of the past quarter's percentage of EFSEC technical staff's average FTE's, charged to EFSEC projects. This along with anticipated work for the quarter is used as the basis for determining the nondirect cost percentage charge, for each EFSEC project.

Using the procedures for developing cost allocation, and allowance for new projects, the following percentages shall be used to allocate EFSEC's non direct costs for the 1st quarter of FY 2019:

Kittitas Valley Wind Power Project	8%
Wild Horse Wind Power Project	8%
Columbia Generating Station	22%
Columbia Solar	17%
WNP-1	4%
Whistling Ridge Energy Project	3%
Grays Harbor 1&2	10%
Chehalis Generation Project	9%
Desert Claim Wind Power Project	16%
Grays Harbor Energy 3&4	3%

Stephen Posner, EFSEC Manager

Date: 7/5/2018
