2	Councilmembers:
1	APPEARANCES

1	CHAIR DREW: Good afternoon. This is Kathleen
2	Drew, Chair of the Energy Facility Site Evaluation
3	Council, and our meeting, which is in Ellensburg,
4	Washington, today, will now come to order. We're very
5	happy to be here.
6	Ms. Mastro, will you call the roll, please?
7	MS. MASTRO: Department of Commerce?
8	CHAIR DREW: Department of Commerce we're waiting
9	for an appointment.
10	MS. MASTRO: Department of Ecology?
11	CHAIR DREW: Cullen Stephenson here.
12	MS. MASTRO: Fish and Wildlife?
13	MR. LIVINGSTON: Mike Livingston on the phone.
14	CHAIR DREW: Hi, Mike.
15	MS. MASTRO: Department of Natural Resources?
16	MR. SIEMANN: Dan Siemann is on the phone.
17	MS. MASTRO: Utilities and Transportation
18	Commission?
19	MS. BREWSTER: Stacey Brewster here.
20	MS. MASTRO: Chair, there is a quorum.
21	CHAIR DREW: Thank you.
22	You have before you the proposed agenda. Is there
23	someone who would like to make a motion to adopt the
24	agenda?
25	MR. STEPHENSON: I will move that we adopt the

<ul> <li>to thank oh.</li> <li>MS. MASTRO: Who is on the phone or do you want to</li> <li>ask?</li> </ul>	20	We are now moving on to our project updates.
<ul> <li>MS. MASTRO: Who is on the phone or do you want to</li> <li>ask?</li> </ul>	21	First is Kittitas Valley Wind Project, and I would like
<sup>24</sup> ask?	22	to thank oh.
	23	MS. MASTRO: Who is on the phone or do you want to
<sup>25</sup> CHAIR DREW: Oh, I should ask. Thank you,	24	ask?
	25	CHAIR DREW: Oh, I should ask. Thank you,

1	Ms. Mastro.
2	Who is on the phone who wants to introduce
3	yourself?
4	MS. DIAZ: This is Jennifer Diaz with Puget Sound
5	Energy, Wild Horse Wind Facility.
6	MR. SHERIN: This is Chris excuse me, this is
7	Chris Sherin with the Grays Harbor Energy Center.
8	MS. RAMOS: Mary Ramos, Energy Northwest.
9	CHAIR DREW: Okay. Moving on now to our
10	operational updates, Kittitas Valley Wind Project.
11	MR. MELBARDIS: Yes, good afternoon, Chair Drew,
12	EFSEC. This is Eric Melbardis with EDP Renewables for
13	the Kittitas Valley Wind Power Project. There was
14	nothing nonroutine to report for the month of April.
15	But I did want to mention that we had a visit with
16	EFSEC Staff and members of the Council today, and it
17	was great to have you out to give you a little tour and
18	to show you what we do out here in Kittitas Valley.
19	CHAIR DREW: Thank you very much. We appreciated
20	the tour, we all learned a lot, and we're very glad to
21	be on site to see your facility and how well it's run.
22	Really appreciated the tour so thank you very much for
23	that.
24	MR. MELBARDIS: Thank you.
25	CHAIR DREW: Wild Horse Wind Power Project,

1	Ms. Diaz.
2	MS. DIAZ: Hi, yes, thank you, Chair Drew and
3	Councilmembers. For the record, this is Jennifer Diaz
4	with Puget Sound Energy for the Wild Horse Wind Power
5	Project. I have a couple of updates for you all.
6	In accordance with the Stormwater Pollution
7	Prevention Plan, a stormwater inspection was completed
8	following spring snowmelt. Overall, the site is stable
9	and in excellent condition. Stormwater BMPs are in
10	good condition and responded well to the melting snow.
11	And in accordance with the Wildlife Incident
12	Reporting and Handling System, annual training was
13	provided to site staff on the proper procedures for
14	responding to and reporting wildlife incidents found
15	within the wind facility boundaries.
16	And then the Renewable Energy Center, our visitor
17	center, opened to the public for the tourist season on
18	April 1st. And then I look forward to the Council and
19	Staff touring Wild Horse tomorrow.
20	CHAIR DREW: Thank you. We look forward to it as
21	well. And I also appreciate the two of you arranging
22	such nice weather for us.
23	MS. DIAZ: Any time.
24	CHAIR DREW: Moving on to the Chehalis Generation
25	Facility. Are we Ms. Bumpus? Mr. Miller or anyone

1	else from Chehalis on the line?
2	MS. BUMPUS: Chair Drew, for the record, this is
3	Sonia Bumpus. We were expecting that Chehalis would be
4	calling in for their update. Based off of their report
5	to the Council for April 2019, there were no recordable
6	incidents for this reporting period.
7	CHAIR DREW: Okay. Thank you very much.
8	Columbia Solar Project, Ms. Kidder.
9	MS. KIDDER: Thank you, Chair Drew. For the
10	record, my name is Ami Kidder. Staff are continuing
11	coordination with their certificate holder. EFSEC
12	Staff has selected an environmental monitor that would
13	participate in the construction phase of the project.
14	I have no other updates at this time.
15	CHAIR DREW: Thank you. Are there any questions?
16	Okay. Thank you.
17	Desert Claim, Ms. Moon.
18	MS. MOON: Good afternoon, Council, Chair Drew,
19	and Councilmembers. For the record, this is Amy Moon
20	and I'm providing an update for the Desert Claim
21	Project. EFSEC Staff continues to coordinate with
22	Desert Claim, and a field meeting was held on May 10,
23	2019, at the Desert Claim site to discuss temporary and
24	permanent water crossings with the Washington
25	Department of Ecology, the Washington Department of

1	Fish and Wildlife, as well as Desert Claim staff and
2	their consultants.
3	CHAIR DREW: Thank you. Any questions?
4	WNP - 1/4, Ms. Ramos.
5	MS. RAMOS: Good afternoon, Chair Drew and
б	Councilmembers. This is Mary Ramos reporting for
7	Energy Northwest. For WNP - 1/4 there are no updates
8	to report.
9	CHAIR DREW: Okay.
10	MS. RAMOS: And for Columbia Generating Station,
11	as previously reported during the April 2019 EFSEC
12	Council meeting, Columbia Generating Station began its
13	24th refueling and maintenance outage on May 11th, and
14	the outage is scheduled to last for 40 days.
15	And then another topic to report is regarding our
16	NPDES permit submittal. In accordance with S7.4 of
17	this Columbia Generating Station NPDES permit, Columbia
18	submitted a groundwater mounding study engineering
19	report on April 24th.
20	And then also in accordance with condition S6 of
21	the Columbia Generating Station NPDES permit, Columbia
22	submitted its NPDES permit renewal application on
23	April 30th. No other updates.
24	CHAIR DREW: Thank you. Are there any questions?
25	Okay. Thank you.

1	For Grays Harbor Energy Center, Mr. Sherin.
2	MR. SHERIN: Good afternoon, Chair Drew,
3	Councilmembers. This is Chris Sherin, plant manager of
4	Grays Harbor Energy Center. The only things that are
5	nonroutine to report for this month for Grays Harbor
6	Energy Center is that we did have one minor spill on
7	April 26th. We had an oil leak that was discovered
8	underneath the plant telehandler forklift.
9	Estimated leak size was half a gallon to one gallon of
10	oil and it was the telehandler was parked on a
11	concrete pad where we normally store it.
12	So no oil reached any ground surface. It was
13	contained and cleaned up, and we put a drip pan under
14	the axle brake piston that was leaking. And on the
15	30th our vendor changed out the telehandlers because
16	they were unable to repair it on site.
17	On April 25th we submitted our March Relative
18	Accuracy Test Audit results to EFSEC and ORCAA, and
19	then we also on the 29th submitted the Operations and
20	Maintenance Manual per the PSD since we made changes to
21	it to EFSEC. Other than that, I don't have anything
22	else to report for the month.
23	CHAIR DREW: Thank you. Are there any questions?
24	Thank you.
25	Ms. Kidder.

1	MS. KIDDER: Thank you, Chair Drew. I just have a
2	quick update for the Council. The Grays Harbor Energy
3	Center is still within a public comment period for the
4	National Pollution Discharge Elimination System waste
5	discharge permit renewal and that public comment period
6	will continue through close of business today. To
7	date, we have received one public comment.
8	We are also looking forward to taking the Council
9	to a site visit to Grays Harbor on June 18th, the
10	morning prior to next month's Council meeting.
11	CHAIR DREW: So specifics in terms of logistics
12	we'll be getting out to the Council. But for those of
13	us starting from Olympia or anyone who wants to join
14	us, I imagine we would carpool.
15	MS. KIDDER: Correct.
16	CHAIR DREW: Okay. Thank you.
17	Moving on now to the oh, did you I'm sorry,
18	Ami Ms. Kidder, did you say when that public comment
19	period is to going to be
20	MS. KIDDER: Through close of business today.
21	CHAIR DREW: Close of business today. Thank you.
22	Moving on to the air rules. Ms. Bumpus.
23	MS. BUMPUS: Thank you. Good afternoon, Chair
24	Drew and Councilmembers. I am listed as the individual
25	who would be proposing the draft air rules. However,

l	BUELL REALTIME REPORTING, LLC	Pa
25	rules and to ensure that EFSEC-issued permits are in	
24	revisions are to be consistent with Ecology and EPA	
23	406 no, it's 460. The purpose of the proposed rule	
22	particular, Chapters 173-400, 173-401, and 173-460	
21	series of updates to their air quality rules, in	
20	The Department of Ecology has gone through a	
19	the CR-105 form is used.	
18	to EFSEC rule qualifies for expedited process and so	
17	Department of Ecology's rulemaking process, this update	
16	that have already been through public comment via the	
15	Because EFSEC will be adopting by reference rules	
14	463-78.	
13	copy of the CR-105 as well as a revised version of WAC	
12	tomorrow, May 22nd. In your packets, you will see a	
11	to file the CR-105 to the Code Reviser's Office by	
10	Specifically, with Council approval, Staff intends	
9	Pollution Sources.	
8	the General and Operating Permit Regulations for Air	
7	Washington Administrative Code or WAC Chapter 463-78,	
6	approval to begin the rulemaking process to amend	
5	Today EFSEC Staff is seeking the Council's	
4	MS. KIDDER: Thank you, Ms. Bumpus.	
3	that are in your packet.	
2	she'll be updating the Council on the draft air rules	
1	I'm going to hand this over to Ms. Ami Kidder and	

1	line with current EPA and Ecology regulations.	
2	Additionally, the Washington Air Quality State	
3	Implementation Plan is pending update and requires the	
4	EFSEC rules be updated to move forward.	
5	The revisions help to fulfill the intent of RCW	
6	80.50.040 and RCW 43.21A, which lay the framework for	
7	EFSEC and Ecology to oversee air emissions within the	
8	state.	
9	The Council's action today will allow for Staff to	
10	file the CR-105 in time for the May 22nd filing	
11	deadline, and this will allow the CR-105 to be noticed	
12	in the June 5th publication which begets a 45-day	
13	public comment period continuing through July 20th.	
14	After this, the Council would take action on a	
15	CR-103 which is the rulemaking order, and once filed,	
16	would begin a 30-day waiting period after which the	
17	updated rules take effect.	
18	Are there any questions?	
19	CHAIR DREW: Are there any questions for Staff?	
20	If you would make a motion.	
21	MR. STEPHENSON: Chair Drew, I move to allow EFSEC	
22	Staff to file the CR-105 with the Code Reviser's Office	
23	which would, upon publication, begin a 45-day public	
24	comment period on the proposed rule adoption of WAC	
25	173-400, 173-401, and 173-460 as promulgated in WAC	
	BUELL REALTIME REPORTING, LLC	Page:

1	463-78. I hope I got all those right.
2	MS. BREWSTER: I second that.
3	CHAIR DREW: Okay. The motion has been made and
4	seconded. Is there any discussion?
5	Mr. Stephenson.
6	MR. STEPHENSON: Chair Drew, Ecology's happy with
7	the cooperative effort that's gone on to get these air
8	rules into EFSEC's business. Air quality at the
9	federal level is rather complex and there's lots and
10	lots of rules and those need revising constantly, and
11	so EPA fixes those, that trickles down to the states
12	and locals, and then to EFSEC. And so we just
13	appreciate all that work. We have to do it, you have
14	to follow-up.
15	In this case, they are very routine updates but we
16	appreciate the EFSEC staying quickly up-to-date with
17	the needed changes.
18	CHAIR DREW: Thank you.
19	Any other comments or discussion? Hearing none,
20	all those in favor of the motion, please say "aye."
21	COUNCILMEMBERS: Aye.
22	CHAIR DREW: I heard one "aye" on the phone.
23	MR. SIEMANN: Aye.
24	CHAIR DREW: Thank you. Motion is adopted.
25	MR. SIEMANN: My "aye" was muted. This is Dan

1	Siemann.
2	CHAIR DREW: Okay. Thank you. That is adopted
3	and we look forward to it. As Mr. Stephenson said,
4	this is following up on work already done both by EPA
5	and by Department of Ecology, we're just adopting by
6	reference, so we look forward to anything we might hear
7	from the public.
8	And moving on, I have a quick update. I talked a
9	bit about the bill that we had put forward during the
10	legislative session and I was optimistic that it would
11	pass the Senate, as it was on the floor ready to be
12	passed and then to the Governor's signature; however,
13	the Senate ran out of time and the bill was not
14	considered on the floor so the bill did not pass. So
15	we'll continue to work on what we're working on this
16	year, which is really trying to look at our processes
17	and ways we can improve our processes.
18	We have a building move taking place at the end of
19	June where we'll be moving to another location with the
20	Utilities and Transportation Commission in Lacey. And
21	that will happen at the end of June so our address will
22	change; however, that should cause very little
23	disruption.
24	Are there any updates you'd like to make,
25	Ms. Bumpus?

1	MS. BUMPUS: Chair Drew, thank you. Well, I'm
2	glad you mentioned the move, I was also thinking of
3	that. So I think that's a very good idea to put that
4	out there. We'll certainly be updating our website as
5	we need to with information if there is if there are
6	changes that affect communications with EFSEC.
7	The only thing I was going to just add and it's
8	already been publically noticed and that is the Wild
9	Horse Wind and Solar Facility Council tour that we have
10	scheduled tomorrow morning, May 22nd, and that tour
11	will be taking place between 9 a.m. and 11:30 a.m.
12	CHAIR DREW: Thank you.
13	We have two members of the public with us, would
14	either one of you like to comment on anything?
15	MS. NELSON: I'm Janet Nelson from Kittitas
16	Audubon. I don't see anything that would affect us.
17	I'm not even sure I followed it all.
18	CHAIR DREW: Thank you. We'll be happy to talk
19	with you afterwards.
20	MR. PECK: I'm Norm Peck also with Kittitas
21	Audubon, and the only comment I have to make is it was
22	difficult to find anything on your website about the
23	air rule that was going to be discussed today.
24	CHAIR DREW: Okay.
25	MR. PECK: And that was the primary reason I

SIEMANN: I will second, Columbia Solar Project, Ms. Kidder? 11 CHAIR DREW: Are there any comments or --MS. KIDDER: Thank you, Chair Drew. For the 12 12 13 record, my name is Ami Kidder. I have a brief update 13 about the minutes? Any corrections? 14 Hearing none, all those in favor of 14 for you on the Columbia Solar Project. EFSEC Staff are approving the minutes from March 19th, 2019, say "aye," 15 15 working to obtain an environmon- - environmental monitor COUNCILMEMBERS: Ave. 16 16 that would participate in the construction phase of the CHAIR DREW: Opposed? The minutes are project for all five sites. We will keep the Council 17 17 adopted. updated as we progress. Are there any questions? 18 18 19 Moving on now to our projects. The first in 19 CHAIR DREW: Thank you. front of us is the Kittitas Valley Wind Project Ms. Bumpus? 20 20 operational update, Mr. Melbardis. 21 21 MS. BUMPUS: Chair Drew, I just wanted to MR. MELBARDIS: Good afternoon, Chair Drew, 22 note, I'll be providing an update on the litigation for 22 23 EFSEC Council. For the period of March, there was Columbia Solar at the end of the Council meeting. 23 24 nothing nonroutine to report at Kittitas Valley. Oh, CHAIR DREW: Okay. Thank you. 24 25 sorry. For the record, this is Eric Melbardis with EDP 25 I know at the table we also have a new Staff Page 6 Page 8 1 Renewables. We did have a fire and life safety member, so I wanted to introduce him at this time. Kyle 1 2 inspection in March and that came back with a perfect 2 Overton, who started this morning. Kyle comes to us 3 score. З from Thurston County as an environmental staff person CHAIR DREW: Congratulations. 4 4 there, Environmental Health, and has an extensive 5 Any questions? background both here and from Arizona, and we are very 5 Moving on to Wild Horse Wind Power Project, pleased to have him on our Staff. So welcome: 6 6 MR. OVERTON: Thank you. 7 Ms. Diaz? 7 CHAIR DREW: Then moving on to Desert Claim, MS. DIAZ: Yes. Thank you, Chair Drew and 8 8 Councilmembers. For the record, Jennifer Diaz with 9 Ms. Moon? 9 Puget Sound Energy at the Wild Horse Wind and Solar MS. MOON: Good afternoon, Council Chair 10 10 11 Drew and Councilmembers. For the record, this is Amy 11 Facility, and we have nothing nonroutine to report for 12 the month of March, Moon, and I am providing an update for the Desert Claim 12 13 CHAIR DREW: Thank you. Project. EFSEC Staff continue to coordinate with Desert 13 14 Chehalis Generation Facility, Mr. Miller? 14 Claim and our contractors working toward construction in MR. MILLER: Good afternoon, Chair Drew and 15 2021, and I have no other updates at this time. 15 16 Councilmembers and Staff. I'm Mark Miller for - from CHAIR DREW: Okay. Thank you. 16 17 the PacifiCorp Chehalis Generation Facility. I would WNP-1/4. Ms, Ramos? 17 18 like to highlight two nonroutine comments for the month MS. RAMOS: Good afternoon, Chair Drew and 18 19 of March. Plant conducted the annual relative accuracy Councilmembers. My name is Mary Ramos reporting for 19 20 test audit for our continuous emission monitors just to Energy Northwest. For WNP-1/4, there are no updates to 20 21 verify that they're continuing to operate within their 21 report. 22 required parameters. 22 CHAIR DREW: Okay. Thank you. And then for The draft report that we received earlier 23 23 Columbia Generating Station-24 last week indicate that all monitors were performing MS. RAMOS: Again, Mary Ramos for Energy 24 25 as -- as -- within the required performance parameters Northwest, Columbia Generating Station. I have three 25

#### . . . .... .. . .

1/16/2010

Verbatim Transcript of Monthly Council Meeting		4/16/2019
Page 9		Page 11
1 topics to report today for Columbia.	1	Are there any questions for Ms. Ramos?
2 CHAIR DREW: Ms. Ramos	2	MS. BREWSTER: I have one.
3 MS. RAMOS: First	3	CHAIR DREW: Ms. Brewster?
4 CHAIR DREW: we're having a little	4	MS. BREWSTER: Ms. Ramos, regarding the
5 difficulty hearing you, so if you can speak up or	5	response to the oil spill, do you have an estimated time
6 closer, that would be great.	6	when that response will be prepared?
7 MS. RAMOS: Oh, okay. Apologize for that,	7	MS. RAMOS: I don't have a target date for
8 So I have three topics to report today for Columbia	8	you. I know that the transformer is being repaired
9 Generating Station. Is that better?	9	during the outage, and so I suspect that our submittal
10 CHAIR DREW: Yes, thank you.	ΤÜ	will be right after the outage, but I I'm not 100
11 MS. RAMOS: Okay. Great. First is	11	percent sure.
12 regarding the transformer oil spill at Columbia. Energy	12	MS. BREWSTER: Thank you.
13 Northwest is working on a response to EFSEC's request	13	CHAIR DREW: Okay. Any other questions?
14 for information regarding the transformer oil spill at	14	Okay. Thank you very much.
15 Columbia. The letter which was sent to Energy Northwest	15	MS. RAMOS: Thank you.
16 by EFSEC on March 14th is requests information	16	CHAIR DREW: Moving on to Grays Harbor
17 regarding the release and cleanup of the soil.	17	Energy Center operational updates, Mr. Sherin?
18 The second topic I'd like to report on is	18	MR. SHERIN: Good afternoon, Chair Drew and
19 regarding our fire inspection. On March 27th, Energy	19	Councilmembers. I'm Chris Sherin, the plant manager at
20 Northwest responded to EFSEC's request for additional	20	Grays Harbor Energy Center. The only two nonroutine
21 information regarding the fire inspection of nonpower	21	items I'll point out from our March operational updates
22 block facilities at Columbia. And the third-party	22	is, we also completed the required relative accuracy
23 reports to support the building code of record	23	test audit, or RATA, for unit one, and we also did it
24 modification for several buildings at Columbia have been	24	on conducted a RATA on unit two. The dates for that
25 submitted to EFSEC.	25	were March 13th and 14th.
Page 10	-	Page 12
1 The third topic I'd like to report on is	1	The other nonroutine item is outside of our
2 regarding our upcoming refuelling outage. Columbia	2	annual revlew, we did update our Startup, Shutdown,
3 Generating Station will begin its 24th refuelling outage	з	Malfunction, Procedure, and that was submitted to EFSEC
4 on May 11. The outage is scheduled to last for 40 days,	4	in March.
5 and it's an opportunity for us to add fresh nuclear fuel	5	CHAIR DREW: Thank you.
6 to the Columbia's reactor core as well as perform	6	MR. SHERIN: And if there aren't any
7 maintenance projects.	7	questions, Ms. Kidder asked me to provide some
8 The total budget for this outage is	8	historical context to Grays Harbor Energy Center's
9 approximately \$127 million. More than 1200 fuel	9	permit history. So I'll just read that
10 temporary outage workers are hired locally and across	10	Grays Harbor Energy Center is a 620-megawatt
11 the country to support the outage. This will be in	11	two-by-one combined cycle natural gas-powered generating
12 addition to the normal workforce at Columbia of about a	12	facility owned by Grays Harbor Energy LLC, a subsidiary
13 thousand.	13	of Invenergy Services LLC. The facility is located near
14 The outage is a high priority for our	14	Elma, Washington, approximately 40 miles from Olympia,
15 station, and it's the key to the plant success and	15	Washington, on a 22-acre site, which is formerly a
16 ability to provide low cost power. It takes two years	16	portion of the 1600-acre Washington Nuclear Project No.
to plan an outage, and with just 25 days from the start,	17	3 and 5 or WNPs 3 and 5. The former nuclear site
18 the entire station is heavily involved in the outage	18	surrounds Grays Harbor Energy Center and is operated by
19 preparations. Every Energy Northwest employee is	19	the Port of Grays Harbor's Satsop Business Park.
20 assigned an outage job, and during this time, we'd ask	20	Duke Energy North America commenced
21 for and appreciate EFSEC's patience as our ability to	21	construction of the facility in September of 2001. Then
	21	one year later, Duke Energy North America halted
<ul> <li>respond to questions and requests is limited.</li> <li>CHAIR DREW: Thank you. Thank you for that</li> </ul>	22	construction at approximately midpoint and placed the
to a state of the	23	project in suspension. Invenergy acquired the project
<ul> <li>24 information. That I think heips all of us understand</li> <li>25 your operations a little bit better.</li> </ul>		in March of 2005 and resumed construction in February

1	, .,	1	overview. I hope that that provided some context as we
2		2	, , , ,
3		3	
4	January 2008 and on unit two February 2008 and COD was	4	Energy Center has been operating under an administrative
5	July 1st, 2008	5	extension of their National Pollutant Discharge
6	Grays Harbor Grays Harbor Energy Center	6	Elimination System, or NPDES Permit, which was approved
7	began operation in July of 2008 under authorization of	7	
8	Site Certification Amendment No. 3, including a	8	Grays Harbor submitted an engineering
9	reissued 2008 NP or NPDES Permit, or National	9	report, which was followed by several rounds of review
10	Pollution Discharge Elimination System Permit, and PSD	10	and coordination between EFSEC Staff and the facility.
11	Amendment 3, or Prevention of Significant Deterioration	11	EFSEC approved the engineering report on
12	Amendment 3. The original Site Certificate Agreement	12	March 15th, 2018, and since have been working with our
13	and National Pollution Discharge Elimination System	13	contractors at Ecology to develop the NPDES Renewal
14	Permits were issued for the construction of Nuclear	14	Permit here before you.
15	Projects that WNP-3 and 5.	15	Are there any questions?
16	During the first year of Grays Harbor Energy	16	CHAIR DREW: And we also have a Staff from
17	Center's operation, compliance issues emerged that	17	Ecology who has worked if you'd like to introduce?
L 8	resulted in effluent exceedances and air emission issues	18	MS. KIDDER: Yes, we have our permit
19	that were identified from the development of the Air	19	contractor here, Liem Nguyen, from Ecology who is
20	Operating Permit. These issues were addressed by	20	contracted with us to develop this permit and fact
21	requesting a fourth amendment to the PSD, or Prevention	21	sheet.
22	of Significant Deterioration Amendment 4, in August of	22	CHAIR DREW: Thank you, Welcome.
23	2009, and the National Pollution Discharge Elimination	23	MR. NGUYEN: Good afternoon,
24	System modification issued in November of 2010, which	24	MS. KIDDER: And if there are no questions
25	we're operating under. Grays Harbor Energy Center		so far, Staff will proceed with our request of the
-	Page 14	<u> </u>	Page 1
1	operated under PSD Amendment 3, or Prevention of	1	Council to take action on a tentative determination to
2	Significant Deterioration Amendment 3, until Prevention	2	approve the Draft NPDES Renewal Permit, which would
3	of Significant Deterioration 4, or Amendment 4, was	3	allow Staff to notice the Draft Renewal Permit, which would
	approved in July 28th of 2018 and became effective	l -	sheet for a minimum 30-day comment period.
4	September 1st, 2018.	4	CHAIR DREW: And the Councilmembers have
5		5	
6	CHAIR DREW: Thank you for that background.	6	received that all in their packet, which they received
	I really appreciate it. We – we are working with you	7	last week.
8	on renewing a number of a couple of permits, and so	8	MS. KIDDER: Correct.
9	that helps to have the Council understand the the	9	CHAIR DREW: Okay. Go ahead
0	background as we we move forward in this process.	10	MS. KIDDER: Staff recommends that the
1	So are there any questions or we can proceed	11	comment period begins on Monday, April 22nd and
2	to our Staff to	12	continues for 30 days, closing ending at close of
3	MR. LIVINGSTON: I just have one out of	13	business on Tuesday, May 21st. We do not recommend a
4	curiosity. The water supply, I I looked at a little	14	public hearing at this time. If there are any questions
5	bit of some of the background. Mentioned wells,	15	on the technical aspect of the permit, our contractor
6	mentioned also the river. Is the water coming directly	16	from Ecology is here and able to address any of those
7	from the river or is it from the ground?	17	concerns. I would ask that the Council please note that
8	MR. SHERIN: No, it's pumped from the ground	18	the draft fact sheet available for the Council on the
9	through the rain wells.	19	SharePoint site has a typographical error that will be
0	MR. LIVINGSTON: Okay. All right. Thank	20	addressed prior to opening the draft up for public
	you. That's all.	21	comment.
1		22	CHAIR DREW: And we did not include those in
1 2	CHAIR DREW: Any other questions?	22	
2	CHAIR DREW: Any other questions? Ms. Kidder?	23	your packets. They're 50-some pages. So if you do want
			your packets. They're 50-some pages. So if you do want a hard copy, we're happy to provide that to you, but in

# Verbatim Transcript of Monthly Council Meeting 4/16/2019 Page 17 Page 17 Page 19

	Page 17		Page 19
1	didn't do so. And I think we have some right here on	1	changes are to the permit. So does that does that
2	hand if anyone would like to take a look at it.	2	help here in the action that the Council's taking?
З	MS. KIDDER: We do.	3	Essentially this is approval of the draft permit and
4	MS, BUMPUS: That's correct, Chair Drew, we	4	CHAIR DREW: Subject to public
5	have we made a few copies in case Councilmembers	5	MS. BUMPUS: That's right, public comment.
6	wanted to look at a hard copy while we're here.	6	MR. LIVINGSTON: Yes, that helps.
7	CHAIR DREW: Are there any questions about	7	CHAIR DREW: Thank you. Yes, it's new for a
8	the Draft NPDES Permit Renewal draft? Again, this is to	8	lot of us. So no worries there. So would you
9	take it out the the action we're asking for today	9	MR. LIVINGSTON: So I'll modify that motion
10	is to take it out for public review.	10	to, I would make a motion to approve the draft permit
11	MS. KIDDER: Correct.	11	pending public review of the period that the EFSEC
12	CHAIR DREW: And if there are no public	12	Council or Staff have suggested to us.
13	comments, part of the decision, then, would be that	13	CHAIR DREW: Is there a second?
14	final action could be taken on this draft if we receive	14	MS. BREWSTER: Second
15	no comments. So I want the Council to be fully aware of	15	MR. SIEMANN: I'll second that motion.
16	that.	16	CHAIR DREW: Thank you.
17	Is that correct?	17	Any discussion?
18	MS. BUMPUS: That's correct. And if we do	18	Okay. Thank you all oh, wait, I better
19	receive comments, we would come back to the Council at	19	
20	the end of the comment period and go over those comments	20	"aye."
21	with you and explain if there were any substantive	21	COUNCILMEMBERS: Aye.
22	changes to the permit necessary, and then you would have	22	CHAIR DREW: Thank you. Motion carries and
23	an opportunity to review those substantive changes	23	the action for approval of the NPDES Permit Renewal
24	before we would request approval of that version of the	24	Draft subject to public comment has been approved.
	permit.		Thank you.
	Page 18	-	Page 20
ı	CHAIR DREW: Okay. Are there questions	1	Ms. Kidder has additional information for
2	about the permit that anyone has? No? No?	2	US.
3	Hearing none, is there someone who would		
		3	MS. KIDDER: Thank you, Council. In further
4	like to make a motion to approve the NPDES Permit		MS. KIDDER: Thank you, Council. In further

But if we do get comments and we do need to change make changes to the permit, then that's where we would send it back to you for another review, and we would discuss those changes with you, and then there	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	MS. KIDDER: Thank you, Council. In further news, I would like to notify the Council of additional activity planned for this facility in the coming months. At the May Council meeting, Staff tentatively plans to bring forth a petition for rulemaking pursuant to Washington Administrative Code or WAC 463-34-030 in order to update WAC 463-78-005, which adopts several sections of WAC 173 by reference. This update will bring WAC 463-78 current with respect to air quality regulations enacted by the Department of Ecology. Are there any questions up to that point? CHAIR DREW: If I can explain in my own words perhaps what we are looking at. We adopt Department of Ecology's air quality rules by reference. They have changed their rules, so we are looking to adopt their new rules by reference. MS. BUMPUS: Correct. CHAIR DREW: And you will get information on that prior to the May meeting, but to know they've already Department of Ecology has already been through the process and the public hearing to adopt
5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	like to make a motion to approve the NPDES Permit Renewal Draft for Grays Harbor Energy Center? MR. LIVINGSTON: Sure, Chair, this is chairman or Councilmember Livingston, and I would make a motion to begin that comment period for the draft permit modification as the period specified by the Staff of EFSEC and to bring it back to us after that comment period for discussion and review. CHAIR DREW: Okay. I think the the process is if there aren't any well, we can still do that. MS. BUMPUS: We can do that. The rule says that this is a tentative determination to approve the permit. And so in the past where no comments are arc provided, and the permit essentially states the same, the Chair could approve the permit without a vote by the Council. But if we do get comments and we do need to change make changes to the permit, then that's where we would send it back to you for another review, and we	3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	MS. <u> </u>	batim Transcript of Monthly Council Meeting		4/16/201
	Page 25		Page 27
1	for EFSEC. And it's exciting. It's my first official	1	accountability, the real goal there is to meet the
2	chance to to speak with the with the Council.	2	challenges ahead, EFSEC should be a more cohesive body,
3	Yeah, I was the sort of point person to and I'm going	3	better able to retain and build on institutional
4	to be sort of leafing through the leafing through the	4	knowledge. We see in the past, there's a - there's a
5	report here for those of you who have it.	5	sort of a core membership of EFSEC, but then different
6	But I was basically the point person to	6	members that come - that came for for different
7	bring together several streams of work that have been	7	cases, so sometimes there'd actually be three councils
8	going on over the last over a year now of input from	8	convening in in at one meeting,
9	stakeholders, which are listed on page 15 of the report.	9	So there's a sense that that wasn't really
10	But extensive conversations that Chair Drew and others	10	the best structure in order to retain knowledge and -
11	have had with the with the wide range of	11	and move forward. So several elements were put into
12	stakeholders, process-mapping that our own team did of	12	the into the bill that that was put forward this
13	our own of our own processes,	13	year including bringing the tribes, Washington tribes,
14	In further discussions with stakeholders and	14	into permit membership on the Council, shifting the
15	others, recommendations that that that were	15	current active - temporary memberships of the cities
16	provided which led to the the draft of the of	16	and counties over to permanent standing - standing
17	the the bill that Chair Drew was referring to and	17	membership, in addition to getting input from from
18	ongoing input that we received on that. And then	18	from local jurisdictions whenever a specific – specific
19	continuing efforts that we've done to to reach out to	19	case is up for for review.
	stakeholders and in several ways.	20	Letting go of the optional state agencies,
20 21	The the report, again, gives a couple	21	keeping them closely involved as partners but not
	pages of background on EFSEC's mission and role, which	22	having – having seats that the with – with the
22	might be a good kind of overview for for folks new to	23	Council, letting go of The Port, nonvoting Port
23	us. On pages 4 and 5, it talks about the some	24	representation, which was not very well utilized. And
24	some view of the external conditions that we believe are	25	those as I said, those things are all in the bill,
25		25	
	Page 26		Page 28 and so and and we're we're moving forward. The
1	are kind of looking out to the future, they're kind	1	only one that really there was some controversy
2	of things that are impacting EFSEC moving forward, which	2	
3	changes in industry and energy demand, which really	3	around cities and some desire to keep keep keep
4	focus a lot on the demands for for renewable energy,	4	individual representation there, but the other efforts
5	which even before this session was was clear was	5	there were were widely supported.
6	was a way that things were going.	6	In terms of opportunity number two,
7	And in terms of mapping out the the	7	streamlining the application process. Again, the
8		I .	
	the the EFSEC of the thing about the EFSEC of the	8	overall goal, which we're laying out, is that EFSEC
9	future on page 6, we're really looking at how do we	9	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just
	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the	9 10	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in

10 11 12	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years.	9 10 11	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the
10 11 12 13	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really	9 10 11 12	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so.
10 11 12 13 14	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years.	9 10 11 12 13	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in
10 11 12 13 14 15	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really	9 10 11 12 13 14	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway
10 11 12 13 14 15 16	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really identified five strategic opportunities for for EFSEC	9 10 11 12 13 14 15	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway particularly for currently solar solar power, solar
10 11 12 13 14 15 16 17	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really identified five strategic opportunities for for EFSEC moving forward, which are which are which are	9 10 11 12 13 14 15 16	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway
10 11 12 13 14 15 16 17 18	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really identified five strategic opportunities for for EFSEC moving forward, which are which are which are listed here. Basically restructuring the Council for	9 10 11 12 13 14 15 16 17	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway particularly for currently solar aolar powor, solar farms, have have an ability to become expedited, but wind farms still have the EIS process. And so we're
10 11 12 13 14 15 16 17 18 19	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really identified five strategic opportunities for for EFSEC moving forward, which are which are which are listed here. Basically restructuring the Council for greater accountability, streamlining the application	9 10 11 12 13 14 15 16 17 18	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway particularly for currently solar solar powor, solar farms, have have an ability to become expedited, but
10 11 12 13 14 15 16 17 18 19 20	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really identified five strategic opportunities for for EFSEC moving forward, which are which are which are listed here. Basically restructuring the Council for greater accountability, streamlining the application process for everyone, enhancing transparency and public	9 10 11 12 13 14 15 16 17 18 19	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway particularly for currently solar aolar powor, solar farms, have have an ability to become expedited, but wind farms still have the EIS process. And so we're
10 11 12 13 14 15 16 17 18 19 20 21	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really identified five strategic opportunities for for EFSEC moving forward, which are which are which are listed here. Basically restructuring the Council for greater accountability, streamlining the application process for everyone, enhancing transparency and public involvement, streamlining regulation and compliance, and	9 10 11 12 13 14 15 16 17 18 19 20	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway particularly for currently solar solar powor, solar farms, have have an ability to become expedited, but wind farms still have the EIS process. And so we're we're unable to go through the through the expedited
10 11 12 13 14 15 16 17 18 19 20 21 22	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really identified five strategic opportunities for for EFSEC moving forward, which are which are which are listed here. Basically restructuring the Council for greater accountability, streamlining the application process for everyone, enhancing transparency and public involvement, streamlining regulation and compliance, and refining the scope and role of the Council.	9 10 11 12 13 14 15 16 17 18 19 20 21	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway particularly for currently solar aolar powor, solar farms, have have an ability to become expedited, but wind farms still have the EIS process. And so we're we're unable to go through the through the expedited process, but it seemed to be there seemed to be a
9 10 11 12 13 14 15 16 17 18 19 20 21 22 22 22 23 24	future on page 6, we're really looking at how do we particularly review new wind and solar facilities in the most expeditious way possible and also be ready for even newer technologies that can be expected to be coming coming online in the in the future years. And through the course, that really identified five strategic opportunities for for EFSEC moving forward, which are which are which are listed here. Basically restructuring the Council for greater accountability, streamlining the application process for everyone, enhancing transparency and public involvement, streamlining regulation and compliance, and refining the scope and role of the Council. I'm just going to say a little bit about	9 10 11 12 13 14 15 16 17 18 19 20 21 22	overall goal, which we're laying out, is that EFSEC should streamline review for all applicants, not just renewable, but for all for everybody. But in particular, EFSEC should map its level of review to match the environmental impact and risks associated with different energy technologies and should be granted the flexibility it needs in order to do so. So that led to a thinking through in terms of the bill coming up with a new pathway particularly for currently solar aolar power, solar farms, have have an ability to become expedited, but wind farms still have the EIS process. And so we're we're unable to go through the through the expedited process, but it seemed to be there seemed to be a call to streamline the review of wind facilities.

.

### DRAFT - UNAPPROVED MEETING MINUTES

Verbatim Transcript of Monthly Council Meeting 4/16/2019					
	Page 29		Page 31		
1	chance for the Council to waive adjudication, which	1	handled hearings.		
2	has which has been a time consuming thing, as long as	2	Listed here was also work on the website,		
3	the EIS, the environmental impact statement, provides	3	which is is coming to fruition, which we're very,		
4	sufficient information to to make a decision. So	4	very excited about. And and as well as some some		
5	envisioning straightforward environmental impact	5	specific improvements that tie into previously the		
6	statements such as what we see in a in a in a wind	6	previously described efforts to – to improve and		
7	farm or other new technologies that might ambulate	7	streamline and simplify the application process.		
8	that that kind of those kind of conditions.	8	Option four, having to do with streamlining		
9	And trying to expand the preapplication	9	regulation and compliance. Again, people people on		
10	process. We really saw that it's really clear that the	10	the outside who do know many people do not know of		
11	earlier we're involved with folks and the more	11	EFSEC and its work, but but of those who do, it's		
12	comprehensive that early involvement is, the better it	12	it's it's mostly focused on on new new siting		
13	is in terms of getting a getting a result that's a	13	and that's sort of the the that's kind of the		
14	win-win for for local folks, for the environment,	14	flashy, dramatic the dramatic stuff that the that		
15	for for energy energy developers.	15	the that EFSEC works.		
16	Those were the elements here that were	16	But the really real meat and potatoes of the		
17	related to the bill. There are other several other	17	day-to-day work for EFSEC is a lot of the regulation and		
	elements involving getting increased input from		compliance work that we're that you heard that we		
18	from from stakeholders and and potential	18			
19	potential applicants, part of which is is underway	19	were doing at the beginning of this meeting and that		
20		20	and that Staff are engaged in on a day-to-day basis with		
21	and we're certainly looking for additional and ongoing	21	our with our current certificate holder.		
22	input,	22	So this is really, as I said, the goal here		
23	So this here lies [sic] a call for for	23	is, EFSEC should seek to continuously improve its		
24	that for that input. This is very much a working	24	regulatory oversight of energy facilities. Always		
25	document. So if if you have ideas that either	25	seeking option needs to strengthen environmental		
	Page 30		Page 32		
1	that you see here that you want to underline or more	1	protection while reducing the time costs and other		
2	detailed ideas that anyone who's listening would like to	2	regulatory burdens on on facility facility		
3	contribute, please don't don't hesitate to contact	3	operators. We haven't heard facility operators asking		
4	us. As I said, this is a living document and an	4	for opposed to that. Anything we can do that, you		
5	ongoing ongoing effort to to do the best we can.	5	know, maintains protections but cuts time and cost and		
6	The third opportunity there was to enhance	6	burdens is something that that that is is		
7	transparency and public involvement. Again, there were	7	widely agreed is a is a is a good idea.		
8	a couple elements that were reflected from this in	8	We we have had ongoing meetings with		
9	in in the in the bill. One, and having to do with	9	we had our first meeting several weeks ago with		
0	environmental justice, which actually, there was	10	certificate holders, which actually went very well.		
.1	there was some questions about whether that would make	11	They're going to be hearing back from us in the coming		
2	it through to to the final. But also strengthening	12	weeks as we build on - on the input that we got that		
.3	the preapplication process, particularly adapting a a	13	we got from them. And, again, particularly in this		
.4	provision that we that about site review or early	14	area, we are seeking further input. So anyone who		
.5	site review in the bill to to excuse me, in in	15	who's listening to this and wants to wants to become		
.6	our in our current statute to make that to adapt	16	more engaged, just let us know.		
7	that into a into a specific preapplication	17	And finally the – the – the last		
	process.	18	opportunity had to do with refining the scope and role		
.0	There's also some work proposed to to		of the Council. And this is really the most future		
	continually continue the efforts that we've under	19	forward-looking of any of these that only one part of		
		20			
	Chair Drew to to make hearings more accessible to	21	this is reflected in the current bill, and that actually		
	local folks and make sure that that the voices of	22	probably may not be seen in in the final. But really		
	people at hearings are are are are well heard	23	right now, EFSEC kind of – kind of has a kind of what		
	and and people feel like can can see that their	24	at one time, I'm sure made made great sense, but now		
5	input when they when they read how we've how we've	25	is a somewhat scattered patchwork of of things		

### Verbatim Transcript of Monthly Council Meeting

### 4/16/2019

	batim Transcript of Monthly Council Meeting		4/16/201
	Page 33		Page 35
1	that that that energy facilities and transmission	1	who knows about the – the future as well.
2	facilities that that we regulate.	2	So Chair, Chair Drew, that's that's kind
3	And there's some thought that, as we said in	3	of the summary there of of what what we did and
4	the goal here, State decision-makers probably should	4	what we're doing. And, again, this is this is really
5	consider whether the State would be better positioned to	5	just what we've proposed, and it's a it's what the
6	achieve its energy goals if EFSEC were granted expanded	6	snapshot of of this moment, but we're we're hoping
7	scope in response to current and expected future changes	7	to to to see this grow and develop as as as
8	in the energy industry. EFSEC could be fully in power	8	people become more involved and as conditions
9	to use its authority and expertise to help accelerate	9	conditions change.
0	the transmission to a clean energy economy.	10	CHAIR DREW: Thank you, Mr. Henderson,
1	So, again, this is this is	11	Before we move on to an update on the
2	future-oriented. It involves ongoing conversations that	12	legislation, are there any questions? That was a lot of
3	would take place in the future with with	13	information. This is meant to be a briefing to provide
4	stakeholders. Obviously nothing would would	14	you. I think many of you, I talked to early on when I
5	would would move forward in this area unless, similar	15	started this process. So this is the collection of the
6	to the bill this year, we had broad stakeholder support	16	work and the conversations and then the recommendations
7	and had had things that the people felt very good	17	of that course.
8	about.	18	And thank you, Stew, for all the help you
	There's some rough ideas in in Appendix	19	did.
9	2, but this is the this is the we're not taking	20	And he is the actual author, so the
0			beautiful language in there really comes from
	any stands on any particular areas at all at this point.	21	Mr. Henderson,
2	It really is we really are trying to open the door to	22	So thank you for for your work on this as
3	are there things that that could be done that would	23	
4	make that that everyone agrees would make sense to	24	well.
5	to really take advantage of the fact that EFSEC is	25	Are there any questions?
	Page 34		Page 36
1	a is a one-stop shop and and and a benefit	1	MR. STEPHENSON: Chair Drew, this is Cullen.
2	to to developers and to build on that going forward.	2	CHAIR DREW: HI, Mr. Stephenson. Go ahead,
3	I should say, and I probably couldn't	3	MR. STEPHENSON: Thank you. I want to
4			
	shouldn't say it on on the record, but the that	4	congratulate you on, you know, trying to make sure that
5	shouldn't say it on on the record, but the that that moving forward on that will probably depend on	4 5	the Council and the Staff are excellent. I think the
5 6		5	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think
	that moving forward on that will probably depend on	5	the Council and the Staff are excellent. I think the
6	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from	5 6 7	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think
6 7	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current – current legislative session	567	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that
6 7 8 9	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current current legislative session that we've been making our way through.	5 6 7 8	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and
6 7 8 9 0	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current – current legislative session that we've been making our way through. Final thing on and that the next set sort	5 6 7 8 9	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important.
6 7 8 9 0	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're	5 6 7 8 9 10	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing
6 7 8 9 .0 .1	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're going here that the, you know, that the current	5 6 7 8 9 10 11	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing emphasis on incremental improvement. We can always do
6 7 8 9 .0 .1 .2 .3	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current - current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're going here that the, you know, that the current legislative session is wrapping up, stakeholder out	5 6 7 8 9 10 11 12	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing emphasis on incremental improvement. We can always do better, and I believe that's what you're trying to do,
6 7 8 9 .0 .1 .2 .3	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're going here that the, you know, that the current legislative session is wrapping up, stakeholder out stakeholder outreach has been going on and will be going	5 6 7 8 9 10 11 12 13	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing emphasis on incremental improvement. We can always do better, and I believe that's what you're trying to do, so I appreciate that. Thank you.
6 7 8 9 0 1 2 3 4 5	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're going here that the, you know, that the current legislative session is wrapping up, stakeholder out stakeholder outreach has been going on and will be going on through throughout the the future. We've been	5 6 7 8 9 10 11 12 13 14	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing emphasis on incremental improvement. We can always do better, and I believe that's what you're trying to do, so I appreciate that. Thank you. CHAIR DREW: Thank you,
6 7 8 9 .0 .1 .2 .3 .4 .5 .6	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current - current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're going here that the, you know, that the current legislative session is wrapping up, stakeholder out stakeholder outreach has been going on and will be going on through throughout the the future. We've been preparing for rulemaking. If the bill passes as we	5 6 7 8 9 10 11 12 13 14 15	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing emphasis on incremental improvement. We can always do better, and I believe that's what you're trying to do, so I appreciate that. Thank you. CHAIR DREW: Thank you, MR. LIVINGSTON: I will second that.
6 7 8 9 .0 .1 .2 .3 .4 .5 .6 .7	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current - current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're going here that the, you know, that the current legislative session is wrapping up, stakeholder out stakeholder outreach has been going on and will be going on through throughout the the future. We've been preparing for rulemaking. If the bill passes as we hope, there will be rulemaking required, so we've been	5 6 7 8 9 10 11 12 13 14 15 16	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing emphasis on incremental improvement. We can always do better, and I believe that's what you're trying to do, so I appreciate that. Thank you, CHAIR DREW: Thank you, MR. LIVINGSTON: I will second that. CHAIR DREW: Thank you, And and we can
6 7 8 9 .0 .1 .2 .3 4 .5 .6 .7 .8	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current - current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're going here that the, you know, that the current legislative session is wrapping up, stakeholder out stakeholder outreach has been going on and will be going on through throughout the the future. We've been preparing for rulemaking, If the bill passes as we hope, there will be rulemaking required, so we've been preparing for that. That is something that is going to	5 6 7 8 9 10 11 12 13 14 15 16 17	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing emphasis on incremental improvement. We can always do better, and I believe that's what you're trying to do, so I appreciate that. Thank you. CHAIR DREW: Thank you, MR. LIVINGSTON: I will second that. CHAIR DREW: Thank you, And and we can have further conversations certainly if you'd like to
6 7 8 9 .0 1 2 3 4 .5 6 .7 .8 9	that moving forward on that will probably depend on the on the Chair's ability to handle her PTSD from the current current - current legislative session that we've been making our way through. Final thing on and that the next set sort of summarizes on on page 12, you know, where we're going here that the, you know, that the current legislative session is wrapping up, stakeholder out stakeholder outreach has been going on and will be going on through throughout the the future. We've been preparing for rulemaking. If the bill passes as we hope, there will be rulemaking required, so we've been preparing for that. That is something that is going to take up a good bit of time for many of us in the in	5 6 7 8 9 10 11 12 13 14 15 16 17 18	the Council and the Staff are excellent. I think the Council is working better and better than ever, I think the Staff is wonderful. I appreciate the changes that you're trying to make and especially adding tribes and local governments to the discussion is very important. And then finally, just, you know, the continuing emphasis on incremental improvement. We can always do better, and I believe that's what you're trying to do, so I appreciate that. Thank you. CHAIR DREW: Thank you, MR. LIVINGSTON: I will second that. CHAIR DREW: Thank you, And and we can have further conversations certainly if you'd like to talk about anything in the report either to Stew or to

CHAIR DREW: Are there any questions? Thank you. MS. BUMPUS: And then I have a few other updates, manager updates, about things that are going
4 5 6 7 8 9 0 1 2 3 4 5 6 7	agencies and notifying them who had previously had the option to sit on the Council as well as requirements for working with local governments that are affected by any of our site application processes as well as with the tribes. So that language has been added. The EFSEC Chair, rather than the UTC, will appoint and supervise Staff to the Council. And during the site application process, as you heard, the informational hearing and land use hearing is combined. Those of you who haven't participated in the past, I think I came shortly after Columbia Solar started, but there was a land use hearing and an informational hearing meeting, and everybody needed to sign in and	4 5 7 8 9 10 11 12 13 14 15 16	June 30th, 2019. For Kittitas Valley Wind Power Project, 10 percent; Wild Horse Wind Power Project, 10 percent; Columbia Generating Station, 26 percent; Columbia Solar, 14 percent; WNP-1, 3 percent; Whistling Ridge Energy Project, 3 percent; Grays Harbor 1 & 2, 13 percent; Chehalis Generating Project, 10 percent; Desert Claim Wind Power Project, 8 percent; and Grays Harbor Energy 3 & 4, 3 percent. CHAIR DREW: Are there any questions? Thank you. MS. BUMPUS: And then I have a few other updates, manager updates, about things that are going on. As I mentioned earlier, I wanted to update the
4 5 6 7 8 9 0 1 2 3 4 5 6 7 8	agencies and notifying them who had previously had the option to sit on the Council as well as requirements for working with local governments that are affected by any of our site application processes as well as with the tribes. So that language has been added. The EFSEC Chair, rather than the UTC, will appoint and supervise Staff to the Council. And during the site application process, as you heard, the informational hearing and land use hearing is combined. Those of you who haven't participated in the past, I think I came shortly after Columbia Solar started, but there was a land use hearing and an informational hearing meeting, and everybody needed to sign in and speak and then that meeting was closed and the next one	4 5 7 8 9 10 11 12 13 14 15 16 17	June 30th, 2019. For Kittitas Valley Wind Power Project, 10 percent; Wild Horse Wind Power Project, 10 percent; Columbia Generating Station, 26 percent; Columbia Solar, 14 percent; WNP-1, 3 percent; Whistling Ridge Energy Project, 3 percent; Grays Harbor 1 & 2, 13 percent; Chehalis Generating Project, 10 percent; Desert Claim Wind Power Project, 8 percent; and Grays Harbor Energy 3 & 4, 3 percent. CHAIR DREW: Are there any questions? Thank you. MS. BUMPUS: And then I have a few other updates, manager updates, about things that are going on. As I mentioned earlier, I wanted to update the Council on the Columbia Solar Project and the litigation
4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9	agencies and notifying them who had previously had the option to sit on the Council as well as requirements for working with local governments that are affected by any of our site application processes as well as with the tribes. So that language has been added. The EFSEC Chair, rather than the UTC, will appoint and supervise Staff to the Council. And during the site application process, as you heard, the informational hearing and land use hearing is combined. Those of you who haven't participated in the past, I think I came shortly after Columbia Solar started, but there was a land use hearing and an informational hearing meeting, and everybody needed to sign in and speak and then that meeting was closed and the next one began. And in order to change that, we had to change	4 5 7 8 9 10 11 12 13 14 15 16 17 18	June 30th, 2019. For Kittitas Valley Wind Power Project, 10 percent; Wild Horse Wind Power Project, 10 percent; Columbia Generating Station, 26 percent; Columbia Solar, 14 percent; WNP-1, 3 percent; Whistling Ridge Energy Project, 3 percent; Grays Harbor 1 & 2, 13 percent; Chehalis Generating Project, 10 percent; Desert Claim Wind Power Project, 8 percent; and Grays Harbor Energy 3 & 4, 3 percent. CHAIR DREW: Are there any questions? Thank you. MS. BUMPUS: And then I have a few other updates, manager updates, about things that are going on. As I mentioned earlier, I wanted to update the Council on the Columbia Solar Project and the litigation activities that have been going on.
45678901234567890	agencies and notifying them who had previously had the option to sit on the Council as well as requirements for working with local governments that are affected by any of our site application processes as well as with the tribes. So that language has been added. The EFSEC Chair, rather than the UTC, will appoint and supervise Staff to the Council. And during the site application process, as you heard, the informational hearing and land use hearing is combined. Those of you who haven't participated in the past, I think I came shortly after Columbia Solar started, but there was a land use hearing and an informational hearing meeting, and everybody needed to sign in and speak and then that meeting was closed and the next one began. And in order to change that, we had to change that in the statute, so that seemed to make sense to	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	June 30th, 2019. For Kittitas Valley Wind Power Project, 10 percent; Wild Horse Wind Power Project, 10 percent; Columbia Generating Station, 26 percent; Columbia Solar, 14 percent; WNP-1, 3 percent; Whistling Ridge Energy Project, 3 percent; Grays Harbor 1 & 2, 13 percent; Chehalis Generating Project, 10 percent; Desert Claim Wind Power Project, 8 percent; and Grays Harbor Energy 3 & 4, 3 percent. CHAIR DREW: Are there any questions? Thank you. MS. BUMPUS: And then I have a few other updates, manager updates, about things that are going on. As I mentioned earlier, I wanted to update the Council on the Columbia Solar Project and the litigation activities that have been going on. So just to give you some background, on
4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9 0 1	agencies and notifying them who had previously had the option to sit on the Council as well as requirements for working with local governments that are affected by any of our site application processes as well as with the tribes. So that language has been added. The EFSEC Chair, rather than the UTC, will appoint and supervise Staff to the Council. And during the site application process, as you heard, the informational hearing and land use hearing is combined. Those of you who haven't participated in the past, I think I came shortly after Columbia Solar started, but there was a land use hearing and an informational hearing meeting, and everybody needed to sign in and speak and then that meeting was closed and the next one began. And in order to change that, we had to change that in the statute, so that seemed to make sense to everybody. We're happy that's there.	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	June 30th, 2019. For Kittitas Valley Wind Power Project, 10 percent; Wild Horse Wind Power Project, 10 percent; Columbia Generating Station, 26 percent; Columbia Solar, 14 percent; WNP-1, 3 percent; Whistling Ridge Energy Project, 3 percent; Grays Harbor 1 & 2, 13 percent; Chehalis Generating Project, 10 percent; Desert Claim Wind Power Project, 8 percent; and Grays Harbor Energy 3 & 4, 3 percent. CHAIR DREW: Are there any questions? Thank you. MS. BUMPUS: And then I have a few other updates, manager updates, about things that are going on. As I mentioned earlier, I wanted to update the Council on the Columbia Solar Project and the litigation activities that have been going on. So just to give you some background, on November 14th of last year, Kittitas County had appealed
4 5 6 7 8 9 0 1 2 3 4 5 6 7 8 9 0 1 2	agencies and notifying them who had previously had the option to sit on the Council as well as requirements for working with local governments that are affected by any of our site application processes as well as with the tribes. So that language has been added. The EFSEC Chair, rather than the UTC, will appoint and supervise Staff to the Council. And during the site application process, as you heard, the informational hearing and land use hearing is combined. Those of you who haven't participated in the past, I think I came shortly after Columbia Solar started, but there was a land use hearing and an informational hearing meeting, and everybody needed to sign in and speak and then that meeting was closed and the next one began. And in order to change that, we had to change that in the statute, so that seemed to make sense to everybody. We're happy that's there. As you heard also, that after completion of	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	June 30th, 2019. For Kittitas Valley Wind Power Project, 10 percent; Wild Horse Wind Power Project, 10 percent; Columbia Generating Station, 26 percent; Columbia Solar, 14 percent; WNP-1, 3 percent; Whistling Ridge Energy Project, 3 percent; Grays Harbor 1 & 2, 13 percent; Chehalis Generating Project, 10 percent; Desert Claim Wind Power Project, 8 percent; and Grays Harbor Energy 3 & 4, 3 percent. CHAIR DREW: Are there any questions? Thank you. MS. BUMPUS: And then I have a few other updates, manager updates, about things that are going on. As I mentioned earlier, I wanted to update the Council on the Columbia Solar Project and the litigation activities that have been going on. So just to give you some background, on November 14th of last year, Kittitas County had appealed the governor's decision approving the site certification
4 5 6 7 8	agencies and notifying them who had previously had the option to sit on the Council as well as requirements for working with local governments that are affected by any of our site application processes as well as with the tribes. So that language has been added. The EFSEC Chair, rather than the UTC, will appoint and supervise Staff to the Council. And during the site application process, as you heard, the informational hearing and land use hearing is combined. Those of you who haven't participated in the past, I think I came shortly after Columbia Solar started, but there was a land use hearing and an informational hearing meeting, and everybody needed to sign in and speak and then that meeting was closed and the next one began. And in order to change that, we had to change that in the statute, so that seemed to make sense to everybody. We're happy that's there. As you heard also, that after completion of an EIS and tribal consultation, the Council may waive	4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	June 30th, 2019. For Kittitas Valley Wind Power Project, 10 percent; Wild Horse Wind Power Project, 10 percent; Columbia Generating Station, 26 percent; Columbia Solar, 14 percent; WNP-1, 3 percent; Whistling Ridge Energy Project, 3 percent; Grays Harbor 1 & 2, 13 percent; Chehalis Generating Project, 10 percent; Desert Claim Wind Power Project, 8 percent; and Grays Harbor Energy 3 & 4, 3 percent. CHAIR DREW: Are there any questions? Thank you. MS. BUMPUS: And then I have a few other updates, manager updates, about things that are going on. As I mentioned earlier, I wanted to update the Council on the Columbia Solar Project and the litigation activities that have been going on. So just to give you some background, on November 14th of last year, Kittitas County had appealed the governor's decision approving the site certification agreements for the five Columbia Solar sites, along with

#### 4/16/2019 Verbatim Transcript of Monthly Council Meeting Page 43 Page 41 In its legal brief to the court, the County 1 hope that everybody does try to attend the meeting in 1 argued that EFSEC had acted contrary to law by 2 person and also to see the facilities if you haven't 2 seen them before. Because as we talked about earlier, concluding that no water availability determination was 3 our compliance and regulation is one of the significant 4 required under the state building code and the county's 4 ordinances for the proposed sites. The Attorney activities that -- the Council approving different types 5 5 General's Office filed a response brief on behalf of the of activities. So personally, I think it's very 6 6 important for us to be familiar. Myself, I find it governor and EFSEC arguing that under the state building 7 7 code, a water availability determination is only easier to understand the topics that we cover and 8 8 required for the construction of buildings that require perhaps to have more questions having seen the 9 9 drinking water supply. facilities in person. So I would encourage everyone to 10 10 The brief also stated that while the state do so. Thank you. Are there any questions? 11 11 industrial safety and health rules will require MR. LIVINGSTON: Chair, one question I have 12 12 employees working on the sites to have access to 13 is, and maybe I know my -- the answer already, but we 13 talked about a tour out to the Columbia Generating drinking water, those rules allow water to be brought on 14 14 15 site in containers for construction workers and for the 15 Station a while back. Obviously, they got some big maintenance workers that will occasionally be at the things going on right now, so is there any plans in the 16 16 17 site. Therefore, it was unnecessary to have plumbed 17 future for a tour out there as well? water supply at these five sites. 18 CHAIR DREW: Ms. Bumpus? 18 MS. BUMPUS: So in light of the fact that 19 Following the receipt of the governor and 19 EFSEC's legal brief on April 8th, 2019, Kittitas County they -- they do have their scheduled shutdown, we're 20 20 agreed to voluntary dismissal of its appeal with working on several other things, we're looking at I 21 21 believe now October trying to line up a tour of the prejudice, meaning that they do not have the right to 22 22 Columbia Generating Station facility. So we'll keep you 23 refile. The request was granted by the assigned judge 23 the following day, which concluded the appeal. updated, but it has been moved around a few times. But 24 24 25 I think that's -- and yeah, is that -- so Amy Moon is So we are now -- and -- and as Ami Kidder 25 Page 44 Page 42 1 discussed earlier, we're continuing to work to get our 1 nodding yes. environmental monitor lined up for when this project MR. LIVINGSTON: Great. Thank you. 2 2 would proceed with construction, and we'll keep you 3 CHAIR DREW: Thank you. 3 posted on how the project progresses as we move into Any other questions? Hearing none, that's 4 4 5 preconstruction activities. 5 the end of our business for today, so this meeting is The other thing I wanted to -- if there adjourned. 6 6 aren't any questions about the litigation activities, (Meeting adjourned at 2:25 p.m.) 7 7 the other thing I wanted to let the Council know about 8 8 is that we're planning to hold the May 21st Council 9 9 meeting in Ellensburg, Washington. We know that there's 10 10 been an interest by Councilmembers to go to the 11 11 facilities that we regulate, and so we are going to have 12 12 that May 21st Council meeting in Ellensburg 13 13 We'll include a site tour of the two wind 14 14 power projects that we have there, the Wild Horse Wind 15 15 Power Facility and Kittitas Valley Wind Power Project. 16 16 We are planning for this to be a two-day event, so we 17 17 would be there May 21 and May 22. Joan will be in touch 18 18 with Councilmembers on more specifics about the schedule 19 19 for the 21st and the 22nd and to find out who would be 20 20 able to attend. So if you have any questions about the 21 21 itinerary, look for that, but also feel free to contact 22 22 us and let us know. 23 23 24 CHAIR DREW: And I would add that I hope 24 everybody -- I know schedules can be difficult, but I 25 25

### Kittitas Valley Wind Power Project Monthly Operations Report

April 2019

**Project Status Update** 

### **Production Summary:**

Power generated:27,508 MWhWind speed:7.5 m/sCapacity Factor:37.9%

### Safety:

No incidents

**Compliance:** Project is in compliance

> Sound: No complaints

Shadow Flicker: No complaints

Environmental: No incidents

# Wild Horse Wind Facility

April 2019

#### <u>Safety</u>

No lost-time accidents or safety injuries/illnesses.

#### Compliance/Environmental

In accordance with the Stormwater Pollution Prevention Plan (SWPPP) a stormwater inspection was completed following spring snowmelt. Overall, the site is stable and in excellent condition. Stormwater BMPs are in good condition and responded well to melting snow.

In accordance with the Wildlife Incident Reporting and Handling System, annual training was provided to site staff on the proper procedures for responding to and reporting wildlife incidents found within the wind facility boundaries.

#### **Operations/Maintenance**

The Renewable Energy Center (visitor center) opened to the public for the tourist season on April 1<sup>st</sup>.

#### **Wind Production**

April generation totaled 76,833 MWh for an average capacity factor of 39.15%.

#### Eagle Update

Nothing to report.

Chehalis Generation Facility 1813 Bishop Road Chehalis, Washington 98532 Phone: 360-748-1300

## **Chehalis Generation Facility----Monthly Plant Report – April 2019** Washington Energy Facility Site Evaluation Council

## 05.13.2019

### Safety:

• There were no recordable incidents this reporting period and the plant staff has achieved 1331 days without a Lost Time Accident.

#### **Environment:**

- There were no air emissions or stormwater deviations or spills during the month.
- Wastewater and Storm-water monitoring results were in compliance with the permit limits.

#### **Operations and Maintenance Activities:**

- The Plant generated 63,505 MW-hours in April for a 2019 YTD generation equaled 546,614 MW-hours and a capacity factor of 40.72% for 2019.
- The Plant conducted an annual 4 day maintenance outage.

#### Regulatory/Compliance:

• An inspection was conducted by the Washington Department of Labor and Industries, Boiler Division, during the annual maintenance outage. There were no findings.

#### Sound monitoring:

• Nothing to report this period.

#### Carbon Offset Mitigation:

• Nothing to report this period.

Respectfully,

Ulphille

Mark A. Miller Manager, Gas Plant Chehalis Generation Facility

Chehalis Generation Facility

#### Energy Northwest May 21, 2019 EFSEC Council Meeting Operations Reporting Period for April 1-30, 2019 Site Contact: Mary Ramos

## Washington Nuclear Project 1 and 4 (WNP-1/4)

No updates to report

#### **Columbia Generating Station (CGS)**

#### <u>Upcoming refueling and maintenance outage</u> As previously reported during the April 2019 EFSEC Council meeting, CGS will begin its 24<sup>th</sup> refueling outage on May 11. The outage is scheduled to last for 40 days.

#### NPDES Permit submittals

In accordance with condition S7.4 of the National Pollutant Discharge Elimination System Permit No. WA002515-1 (CGS NPDES permit), CGS submitted a groundwater mounding study engineering report for circulating cooling water system losses on April 24, 2019. In accordance with condition S6 of the CGS NPDES permit, CGS submitted its NPDES permit renewal application on April 30, 2019.

# EFSEC Monthly Operational Report Grays Harbor Energy Center

April 2019

Safety and Training

• There were no accidents or injuries during the month and the plant staff has achieved 3771 days without a lost time incident.

#### **Environmental & Compliance**

- There were no air emissions, outfall or storm water deviations, during the month.
- One minor spill. On April 26, an oil leak was found under the plants Telehandler (forklift). The leak, ½ - 1gal, was on a concrete pad under the Telehandler where it is normally parked. No part of the spill reached any ground surface. It was immediately contained and cleaned up. A drip pan was placed under the Telehandler to prevent any further leak from the front axle brake piston to the concrete pad. The Telehandler is leased and was replaced on April 30<sup>th</sup>. Our vendor was unable to make repairs on site. EFSEC was notified.
- All routine reporting was completed for the month and quarter.
- On April 25<sup>th</sup>, the March RATA results were submitted to EFSEC and ORCAA.
- On April 29<sup>th</sup>, EFSEC was sent a new revision of our PSD required Operations and Maintenance Manual.

**Operations & Maintenance** 

- Grays Harbor Energy Center (GHEC) operated 15days during the month, with 6 starts on U1, and 3 starts on U2.
- GHEC generated 169,243MWh during the month and 875,921MWh YTD.
- The plant capacity factor was 38% for the month and 49.1% YTD.

# STATE OF STA

# **EXPEDITED RULE MAKING**

# CR-105 (December 2017) (Implements RCW 34.05.353)

Agency: Energy Facility Site Evaluation Council (EFSEC)

**Title of rule and other identifying information:** (describe subject) This rulemaking would revise adoption-by-reference Chapter 463-78 WAC - General and Operating Permit Regulations for Air Pollution Sources

Purpose of the proposal and its anticipated effects, including any changes in existing rules: This proposal would revise the adoption-by-reference to provide continuity with the current version(s) of Department of Ecology updated air rules.

**Reasons supporting proposal:** EFSEC is updating its adoption of Chapters as listed below, Adoption of the WAC Air Rules will incorporate the updates made by Department of Ecology air rules, reflected below. Chapter 173-400 Updated 10/25/2018 Chapter 173-401 Updated 9/16/2018 Chapter 173-460 Updated 6/20/2009

Statutory authority for adoption: RCW 80.50.040(1), RCW 34.05

Statute being implemented:

Is rule necessary because of a:			
Federal Law?	🗆 Yes	🛛 No	
Federal Court Decision?	🗆 Yes	🖂 No	
State Court Decision?	🗆 Yes	🛛 No	
If yes, CITATION:

Agency comments or recommendations, if any, as to statutory language, implementation, enforcement, and fiscal matters:

Expedited Adoption - Which of the following criteria was used by the agency to file this notice:			
□ Relates only to internal governmental operations that are not subject to violation by a person;			
Adopts or incorporates by reference without material change federal statutes or regulations, Washington state statutes, rules of other Washington state agencies, shoreline master programs other than those programs governing shorelines of statewide significance, or, as referenced by Washington state law, national consensus codes that generally establish industry standards, if the material adopted or incorporated regulates the same subject matter and conduct as the adopting or incorporating rule;			
	anges, or clarify language of a rule without changing its effect;		
<ul> <li>Content is explicitly and specifically dictated by statute;</li> </ul>			
☐ Have been the subject of negotiated rule making, pilot rule making, or some other process that involved substantial participation by interested parties before the development of the proposed rule; or ☐ Is being amended after a review under RCW 34.05.328.			
Expedited Repeal - Which of the following criteria was us	sed by the agency to file notice:		
The statute on which the rule is based has been repealed	and has not been replaced by another statute providing		
statutory authority for the rule; <ul> <li>The statute on which the rule is based has been declared unconstitutional by a court with jurisdiction, there is a final judgment, and no statute has been enacted to replace the unconstitutional statute;</li> <li>The rule is no longer necessary because of changed circumstances; or</li> </ul>			
Other rules of the agency or of another agency govern the same activity as the rule, making the rule redundant. Explanation of the reason the agency believes the expedited rule-making process is appropriate pursuant to RCW			
34.05.353(4):			
NOTICE			
THIS RULE IS BEING PROPOSED UNDER AN EXPEDITED RULE-MAKING PROCESS THAT WILL ELIMINATE THE NEED FOR THE AGENCY TO HOLD PUBLIC HEARINGS, PREPARE A SMALL BUSINESS ECONOMIC IMPACT STATEMENT, OR PROVIDE RESPONSES TO THE CRITERIA FOR A SIGNIFICANT LEGISLATIVE RULE. IF YOU OBJECT TO THIS USE OF THE EXPEDITED RULE-MAKING PROCESS, YOU MUST EXPRESS YOUR OBJECTIONS IN WRITING AND THEY MUST BE SENT TO

AMENDATORY SECTION (Amending WSR 15-16-033, filed 7/27/15, effective 8/27/15)

2

WAC 463-78-005 Adoption by reference. (1) The energy facility site evaluation council adopts by reference the following provisions of chapter 173-400 WAC, as it existed on ((December 29, 2012)) November 25, 2018, with the exceptions that:

(a) WAC 173-400-111 (5)(a) (last six words), (6), (9), ((and WAC 173-400-720 is adopted by reference except the date in WAC 173-400-720 (4) (a) (vi) is May 1, 2015, and WAC)) 173-400-730(4), and 173-400-750(2) second sentence are not adopted by reference((7)); and (b) The terms "ecology," "authority," "director," and "permitting authority" in WAC 173-400-030 shall mean "the energy facility site

evaluation council" unless a different meaning is plainly required by the context.

Adoption of federal rules.
Definitions.
Relocation of portable sources.
General standards for maximum emissions.
Emission standards for combustion and incineration units.
Emission standards for general process units.
Emission standards for certain source categories.))
Emission standards for sources emitting hazardous air pollutants.
Emission limits during startup and shutdown.
Voluntary limits on emissions.
Records, monitoring, and reporting.
Excess emissions.
New source review (NSR) for sources and portable sources.
Processing notice of construction applications for sources, stationary sources and portable sources.
Requirements for new sources in nonattainment areas.
Requirements for new sources in attainment or unclassifiable areas.
Requirements for replacement or substantial alteration of emission control technology at an existing stationary source.
Increment protection.
Special protection requirements for federal Class I areas.
Bubble rules.

WAC 173-460-040:	New source review.
WAC 173-460-050:	Requirement to quantify emissions.
WAC 173-460-060:	Control technology requirements.
WAC 173-460-070:	Ambient impact requirement.
WAC 173-460-080:	((Demonstrating ambient impact compliance.)) First tier review.
WAC 173-460-090:	Second tier ((analysis)) review.
WAC 173-460-100:	((Request for risk management decision.)) Third tier review.
(( <del>WAC 173-460-110:</del>	Acceptable source impact levels.
WAC 173-460-120;	Scientific review and amendment of acceptable source impact levels and lists.
WAC 173-460-130:	<del>Fees.</del> ))
WAC 173-460-140:	Remedies.
WAC 173-460-150:	((Class A toxic air pollutants: Known, probable and potential human carcinogens and acceptable source impact levels.)) Table of ASIL, SQER, and de minimis emission values.
(( <del>WAC 173-460-160:</del>	Class B toxic air pollutants and acceptable source impact levels.))

(5) The energy facility site evaluation council adopts by reference the following provisions of chapter 173-441 WAC, as it existed on January 1, 2011.

WAC 173-441-010:	Scope.
WAC 173-441-020:	Definitions.
WAC 173-441-030:	Applicability.
WAC 173-441-040:	Greenhouse gases.
WAC 173-441-050:	General monitoring, reporting, recordkeeping and verification requirements.
WAC 173-441-060:	Authorization and responsibilities of the designated representative.
WAC 173-441-070:	Report submittal.
WAC 173-441-080:	Standardized methods and conversion factors incorporated by reference.
WAC 173-441-090;	Compliance and enforcement.
WAC 173-441-100:	Addresses.
WAC 173-441-110:	Fees.

WAC 173-441-120:	Calculation methods incorporated by reference from 40 C.F.R. Part 98 for facilities.
WAC 173-441-140:	Petitioning ecology to use an alternative calculation method to calculate greenhouse gas emissions.
WAC 173-441-150:	Confidentiality.
WAC 173-441-160:	Ecology to share information with local air authorities and with the energy facility site evaluation council.
WAC 173-441-170:	Severability.

AMENDATORY SECTION (Amending WSR 06-06-037, filed 2/23/06, effective 3/26/06)

WAC 463-78-100 Registration. (1) Purpose. The registration program is used by the council to develop and maintain a current and accurate record of air contaminant sources subject to chapter 80.50 RCW. Information collected through the registration program is used to evaluate the effectiveness of air pollution strategies in collaboration with the department of ecology, and to verify source compliance with applicable air pollution requirements.

(2) Requirement to register. Except as provided in subsection (3) of this section, the owner or operator of each source subject to chapter 80.50 RCW shall register the source with the council. Sources subject to the Operating permit regulation in chapter 173-401 WAC are not required to comply with these registration requirements.

(3) The following sources are exempt from registration:

(a) A source that emits pollutants below the following emission rates:

Pollutant	Tons/Year
Carbon monoxide	5.0
Nitrogen oxides.	2.0
Sulfur dioxide	2.0
Particulate Matter (PM).	1.25
Fine Particulate (PM10).	0.75
Volatile Organic Compounds (VOC)	2.0
Lead	0.005

; and

(b) A source or emission unit that does not emit measurable amounts of Class A ((or Class B)) toxic air pollutants specified in WAC 173-460-150 ((and 173-460-160)).

(4) Initial registration. The owner or operator of a source that exists on the effective date of this rule must register the source with the council by no later than one year after the effective date of this rule. The owner or operator of a new source must register with the council within ninety days after beginning operation.

(5) Annual reregistration. After initial registration, the owner or operator of a source must reregister with the council by February 15 of each year. The reregistration must include all of the information required in the initial registration and must be updated to reflect any changes to such information since the previous registration. For information that has not changed since the previous registration, the owner or operator may reaffirm in writing the correctness and current status of the information previously furnished to the council.

(6) Registration format. Registration shall be in a format approved by the council. Each registration submittal shall include the following information:

(a) Name of the source and the nature of the business;

(b) Street address, telephone number((, facsimile number,)) and email address of the source;

(c) Name, mailing address, telephone number((, facsimile number)) and email address of the owner or operator;

(d) Name, mailing address, telephone number((, facsimile number)) and email address of the local individual responsible for compliance with this rule;

(e) Name, mailing address, telephone number((, facsimile number)) and email address of the individual authorized to receive requests for data and information;

(f) A description of the production processes and a related flow chart;

(g) Identification of emission units and air pollutant generating activities;

(h) A plot plan showing the location and height of all emission units and air pollutant generating activities. The plot plan must also show the property lines of the air pollution source and indicate the distance to and direction of the nearest residential or commercial property;

(i) Type and quantity of fuels, including the sulfur content of fuels, used on a daily and annual basis;

(j) Type and quantity of raw materials used on a daily and annual basis;

(k) Estimates of the total actual emissions for the air pollution source of the following air pollutants: Particulate matter emissions,  $PM_{10}$  emissions, sulfur dioxide (SO<sub>2</sub>), nitrogen oxides (NO<sub>X</sub>), carbon monoxide (CO), volatile organic compounds (VOC), lead (Pb), fluorides, sulfuric acid mist, hydrogen sulfide (H<sub>2</sub>S), total reduced sulfur (TRS), and reduced sulfur compounds;

(1) Calculations used to determine the estimated emissions in (k) of this subsection;

(m) Estimated efficiency of air pollution control equipment under present or anticipated operating conditions; and

(n) Any other information specifically requested by the council.

(7) Procedure for estimating emissions. The registration submittal must include an estimate of actual emissions taking into account equipment, operating conditions, and air pollution control measures. The emission estimates must be based upon actual test data, or in the absence of such data, upon procedures acceptable to the council. Any emission estimates submitted to the council must be verifiable using currently accepted engineering criteria. The following procedures are generally acceptable for estimating emissions from air pollution sources:

(a) Source-specific emission tests;

(b) Mass balance calculations;

(c) Published, verifiable emission factors that are applicable to the source;

(d) Other engineering calculations; or

(e) Other procedures to estimate emissions specifically approved by the council.

(8) Other reports required.

(a) A report of closure shall be filed with the council within ninety days after operations producing emissions permanently ceased at any source within the council's jurisdiction.(b) A report of relocation of the source shall be filed with the

(b) A report of relocation of the source shall be filed with the council no later than ninety days prior to the relocation of the source. Submitting a report of relocation does not relieve the owner or operator of other site certification agreement amendment requirements pursuant to chapter 463-66 WAC, nor does it relieve the owner or operator from the requirement to obtain a permit or approval to construct if the relocation of the air pollution source would be a new source or modification subject to any federal or state permit to construct rule.

(c) A report of change of owner or operator shall be reported to the council within ninety days after the change in ownership is effective. Submitting the report of change of ownership does not relieve the owner or operator of other site certification agreement amendment requirements pursuant to chapter 463-66 WAC.

(9) Certification of truth and accuracy. All registrations and reports must include a certification by the owner or operator as to the truth, accuracy, and completeness of the information. This certification must state that, based on information and belief formed after reasonable inquiry, the statements and information are true, accurate, and complete.

(10) The council shall ensure that the following, as it pertains to sources covered under this rule, is passed on to ecology in a timely manner for inclusion in its permit register:

(a) Public meetings or hearings on draft operating permits;

(b) Receipt of complete applications;

(c) Permit appeals;

(d) Issuance or denial of final permit, permit modifications, or renewals;

(e) Authorization for a source to operate without an operating permit by limiting its potential to emit to levels below those that would require the source to obtain an operating permit;

(f) Periodic summaries of enforcement order and changes made without revising the permit pursuant to WAC 173-401-722.
