2	CHAIR DREW: Thank you.	2	
3	We are at the end of our formal agenda, and	3	STATE OF WASHINGTON
4	at this point, what I would like to do is you heard them	4	COUNTY OF THURSTON
5	introduced at the beginning of our Council meeting, but	5	
6	we have two siting and compliance specialists who have	6	I, Tayler Garlinghouse, a Certified Shorthand
7	joined our Staff. So at this point, I would like to	7	Reporter in and for the State of Washington, do hereby
8	welcome Joe Wood and Sean Chisholm, and you will see Joe	8	certify that the foregoing transcript is true and
9	is working on the transmission quarter the	9	accurate to the best of my knowledge, skill and ability.

12	Stew Henderson as well as Sean Chisholm.	12	
13	There's Joe, so welcome to the staff, Joe.	13	_ Jaylor Garlinghouse.
14	And Sean Chisholm, and he is working to	14	Tayler Garlinghouse, CCR 3358
15	learn the active projects that are in front of us and	15	
16	perhaps some of the new ones we anticipate coming our	16	
17	way. So you will hear more.	17	
18	And, Ms. Hafkemeyer, I hear that perhaps you	18	
19	would like to also welcome the Staff?	19	
20	MS. HAFKEMEYER: Oh, yes. I didn't have	20	
21	much more to add except to say that Joe and Sean have	21	
22	joined us at a very busy time and have jumped right in	22	
23	and are keeping their heads above water quite well.	23	
24	CHAIR DREW: Thank you.	24	
25	And welcome to the team, and I know the	25

2	you over time. So appreciate that you were willing to		
3	join us and work on these projects before us.		
4	With that, our meeting is concluded, and I		
5	want to thank everyone for participating and encourage		
б	you to stay informed on the projects in front of us		
7	through our website and to communicate with us,		
8	especially the Staff, because as many of you know, the		
9	Council doesn't respond directly because we are waiting		
10	for the Staff to complete the EIS work to complete our		
11	process on these projects.		
12	So please continue to check our websites for

EFSEC Monthly Council Meeting – Facility Update Format

Facility Name: Kittitas Valley Wind Power Project Operator: EDP Renewables Report Date: August 2 Reporting Period: July 2021 Site Contact: Eric Melbardis, Sr Operations Manager Facility SCA Status: Operational

Operations & Maintenance (only applicable for operating facilities)

- Power generated: 47,573 MWh
- Wind speed: 11 m/s
- Capacity Factor: 63.43%

Environmental Compliance

- No incidents
- Sent annual TAC update email to remaining TAC members

Safety Compliance

- Nothing to report

Current or Upcoming Projects

- Nothing to report

Other

- No sound complaints
- No shadow flicker complaints

EFSEC Monthly Council Meeting – Facility Update

Facility Name:Wild Horse Wind FacilityOperator:Puget Sound EnergyReport Date:August 6, 2021Report Period:July 2021Site Contact:Jennifer GalbraithSCA Status:Operational

Operations & Maintenance

July generation totaled 40,976 MWh for an average capacity factor of 20.20%.

Environmental Compliance Nothing to report.

Safety Compliance

Noting to report.

Current or Upcoming Projects

Nothing to report.

Other

The Renewable Energy Center (visitor center) opened to the public on July 1st. Additional safety protocols have been implemented based on WA State and L&I Guidelines as well as specific PSE policy in regards to COVID-19 to provide a safe and healthy environment for our employees, guests, and others that visit our facility.

EFSEC Monthly Council Meeting – Facility Update

Facility Name: Chehalis Generation Facility Operator: PacifiCorp Report Date: August 6, 2021 Reporting Period: July 2021 Site Contact: Mark A. Miller, Plant Manager Facility SCA Status: Operational

Operations & Maintenance

-Relevant energy generation information, such as wind speed, number of windy or sunny days, gas line supply updates, etc.

- 189,946 MW-hrs generated in July for year-to-date generation of 1,289,968 MW-hrs and a YTD capacity factor of 51.5%.
- Water purchase for electric generation purposes from the City of Chehalis was curtailed on July 8, 2021. EFSEC Permit conditions require the Chehalis Generation Facility cease water purchases from the City of Chehalis once the Chehalis River flow has reached less than 165 cubic feet per second (CFS) as measured at the United States Geological Survey (USGS) Grand Mound metering station. (#12027500)
 - The USGS re-calibrated their river height and flow monitor gauges on July 29th and retroactively restated the river flow data back to their last calibration date of May 18, 2021. The effect of this was to increase river flow values during the period of curtailed water purchases which would have allowed the Chehalis to continue to purchase water from the City of Chehalis.
 - The Chehalis Generation Facility hasn't pulled any water, other than for potable purposes, since July 8, 2021. The river flow as of August 6, 2021 as reported by the USGS gauge was 131 CFS.
 - Storage capacity of water as of August 6, 2021 was at 49.7% or roughly 30 days of water supply remaining for electric generation.

The following information must be reported to the Council if applicable to the facility:

Environmental Compliance

-Permit status if any changes.

• No changes.

-Update on progress or completion of any mitigation measures identified.

• No issues or updates.

-Any EFSEC-related inspections that occurred.

• None.

-Any EFSEC-related complaints or violations that occurred.

• None.

-Brief list of reports submitted to EFSEC during the monthly reporting period.

- The Chehalis plant submitted the annual Relative Accuracy Test Audit of the continuous emission monitors during the last week of April. The final report submitted to EFSEC staff verified continued compliance with all permit conditions.
- Wastewater and Stormwater Discharge Monitoring Reports were submitted to the relevant regulatory agencies. The reports provided verification that the plants discharges were within permit limits.

Safety Compliance

-Safety training or improvements that relate to SCA conditions.

• Zero injuries this reporting period and a total of 2,192 days without a Lost Time Accident.

Current or Upcoming Projects

-Planned site improvements.

- No planned changes.
- -Upcoming permit renewals.
 - Title V Air Operating Permit Complete Renewal Package submitted on December 23, 2020. Title V AOP expires December 29, 2021.
- -Additional mitigation improvements or milestones.
 - No issues or updates.

Other

-Current events of note (e.g., Covid response updates, seasonal concerns due to inclement weather, etc.).

• Nothing to report.

-Personnel changes as they may relate to EFSEC facility contacts (e.g., introducing a new staff member who may provide facility updates to the Council).

• The Environmental Analyst for the Chehalis plant position is open and has been posted for re-fill. We are currently reviewing applications for this position.

-Public outreach of interest (e.g., schools, public, facility outreach).

• Nothing to report.

Respectfully,

2 mille

EFSEC Monthly Council Meeting – Facility Update

Facility Name: Grays Harbor Energy Center Operator: Grays Harbor Energy LLC Report Date: August 17, 2021 Reporting Period: July 2021 Site Contact: Chris Sherin Facility SCA Status: Operational

Operations & Maintenance

-GHEC generated 412,558MWh during the month and 1,545,844MWh YTD.

The following information must be reported to the Council if applicable to the facility:

Environmental Compliance

-There were no emission, outfall, or storm water deviations, during the month.

-Routine monthly and quarterly reporting to EFSEC

- Monthly Outfall Discharge Monitor Report (DMR)
- Quarterly EDR

-GHEC submitted a revision to our Receiving Water Study Plan.

Safety Compliance

-None.

Current or Upcoming Projects

-None.

EFSEC Monthly Council Meeting – July 2021

Facility Name: Columbia Generating Station and Washington Nuclear Project 1 and 4 (WNP-1/4)
Operator: Energy Northwest
Report Date: August 3, 2021
Reporting Period: July 2021
Site Contact: Marshall Schmitt
Facility SCA Status: (Pre-construction/Construction/Operational/Decommission): Operational

CGS Net Electrical Generation July 2021: 845,579 MW-Hrs

Environmental Compliance

A quarterly environmental compliance audit of Energy Northwest was conducted on 7/21/21 via teleconference. No issues/violations were identified. The next audit will occur in October 2021.

EN submitted proposed minor revisions to the CGS Groundwater Quality Assurance Project Plan and has requested EFSEC approval by 10/31/21 (if possible).

Current or Upcoming Projects

N/A

Other

On 7/29/21, Energy Northwest's Executive Board named Robert (Bob) Schuetz as the agency's CEO, effective Aug. 7. Mr. Schuetz joined EN in 2013. He was promoted to plant general manager for Columbia Generating Station in 2014 and became site vice president in 2018. Before joining EN, he served as a plant evaluation team leader for the Institute of Nuclear Power Operations (INPO). Mr. Schuetz is a 28-year U.S. Navy veteran who retired from service as the deputy commander and chief of staff for the U.S. Pacific Fleet Submarine Force, where he oversaw more than 7,000 service members operating 36 ships from four bases.

EFSEC Monthly Council Meeting Facility Update

Facility Name: Columbia Solar Projects (Penstemon, Camas and Urtica) Operator: Tuusso Energy, LLC Report Date: August 6, 2021 Reporting Period: 30-days ending August 6, 2021 Site Contact: Owen Hurd Facility SCA Status: Construction

Construction Status

- Penstemon
 - Pile driving 90% complete
 - Medium-voltage underground work complete
 - Racking/tracker installation to begin 8/17
- Camas
 - Construction surveys complete
 - Equipment area pads in progress
 - Pile driving to begin week of Aug 9th
- Urtica
 - o Underground work underway at both equipment areas
 - o Construction surveys nearly complete (piles locations still in progress)
 - Underground boring between two sections of the array to begin week Aug 9th

Environmental Compliance

- Progress on mitigation measures:
 - Weekly Golder visits and ongoing communication with the field team has ensured compliance with our construction SWPPP
 - All sites BMPS are in place
- Golder and NW Code inspections ongoing, with no issues to report
 - Penstemon: underground and pad work inspections are complete
 - Camas: underground and pad work inspections in progress (as of 8/6/21)
 - Urtica: underground inspections in progress (as of 8/6/21)

Safety Compliance

- Daily safety tailgate meetings in progress
- Borrego safety auditing and monitoring occurring daily

Current or Upcoming Projects

• Further refinement of planting plans

Other

- Currently expecting torque tubes to be delivered on 8/17, after delays from country-wide Covid shut down in Malaysia
- PSE to begin Point of Interconnection work on 8/17-8/26
