Subject: Data Request No. 2 for Horse Heaven Wind Project Application for Site Certification

Dear Mr. Kobus,

Thank you for the opportunity to review your Application for Site Certification (ASC). The Energy Facility Site Evaluation Council (EFSEC) appreciates the time and effort that has been invested in preparing this ASC. EFSEC conducted a review of the comments received in the Scoping Comment period and prepared a second data request based on the ongoing application review, agency comments, and public comments. Attached please find Data Request No. 2. It is our intention that the detailed requests for information will assist you in preparing materials necessary to process your ASC. The information requested is required for preparation of the Draft Environmental Impact Statement (DEIS).

Note that each request is labeled with a Data Request ID for tracking purposes and is numbered sequentially as the relevant language will appear in the DEIS (e.g., Earth-1). The requested information can be provided in the blank column in the attached table, or if lengthy, provided as an attachment to the table. Responses in an attachment should have the appropriate ID number referenced. EFSEC requests that you submit the additional information by August 16, 2021. Please contact EFSEC if there are concerns about meeting this timeline. Additionally, as review of the ASC and preparation of the DEIS proceeds, additional data requests are anticipated.

Please contact Amy Moon at [amy.moon@utc.wa.gov](mailto:amy.moon@utc.wa.gov) or by calling (360) 664-1362 if you have any questions concerning this letter or the data request.

Sincerely,

Ami Kidder  
Energy Facility Siting and Compliance Manager
