**Date:** Tuesday, October 11, 2022 10:17:23 AM

---

External Email

As a resident of Benton County, I am FIRMLY AGAINST the request the of the Energy Facility Site Evaluation Council's agreement processing time of the Horse Heaven Wind Farm, LLC Application be extended an additional seven (7) months, to July 8, 2023. This extension demonstrates the project is not mature enough to progress forward. If the environmental impacts of this well-intentioned project were defensible, it could have been done in the originally defined time frame. To require special handling demonstrates this project is not defensible!

Its time to admit this project does not warrant completion without special handling outside of the established legal processes. **JUST SAY NO!**
