

26 | explains. While the applicant may propose mitigation measures that would lessen the  
27 | impacts the project may have on birds and wildlife, mapped critical areas, and other  
28 | environmental concerns, there are no mitigation measures that are sufficient for the  
29 |  
3 | permanent loss of such a large percentage of the County's agricultural land which is the  
4 | dominant land.
