

STATE OF WASHINGTON

ENERGY FACILITY SITE EVALUATION COUNCIL

PO Box 43172 • Olympia, Washington 98504-3172

January 27, 2021

Mr. Robert Ferguson
Attorney General
P.O. Box 40100
Olympia, Washington 98504-0100

Subject: Appointment of Counsel for the Environment

Dear Mr. Ferguson:

On January 19, 2021, OneEnergy, LLC submitted an application to the Washington State Energy Facility Site Evaluation Council (EFSEC) to construct and operate a solar project, located in Yakima County.

EFSEC's process for review is authorized under Title 80.50 RCW in accordance with its rules codified in Chapter 463 WAC. Under the law, once an application for a major energy facility is received, "the Attorney General shall appoint an Assistant Attorney General as the Counsel for the Environment" (CFE) (RCW 80.50.080). We expect to have our first public informational meeting late February or early March 2021, which is the time we typically introduce the CFE to the public.

I look forward to working with your appointee during the processing of this application. If you have any questions concerning this project please call me at (360) 704-0196.

Sincerely,

Sonia Bumpus
EFSEC Manager
