As the Fire Authority for the Goose Prairie Solar Project, Yakima County Fire District #4, East Valley Fire Department (EVFD) has interest in development of properties within it's boundaries. Development of the Goose Prairie Solar Project will have an impact on the EVFD, and wishes to be informed and involved in the planning process where it impacts emergency services to the area. Specifically we are interested in facility access, weed control and mitigation in and around the facility, fire suppression systems (if applicable), construction emergency plans, etc. EVFD wishes to have a meeting with the developer to establish rapport and develop a working relationship for a successful process.

EVFD intends to work with the developers of the Goose Prairie Solar Project to identify issues that may have an impact on the Fire District and to address those impacts in a responsible and efficient manner.
