Douglas County Libraries

Subject: Badger Mountain Solar Energy Project: Application for Site Certification
Docket: # EF-210747

Dear Librarian:

The Energy Facility Site Evaluation Council (EFSEC) is the Washington State agency responsible for the environmental review of the proposed Badger Mountain Solar Energy Project. On October 7, 2021, EFSEC received an Application for Site Certification (ASC) from Avangrid Renewables, LLC for a 200 megawatt (MW) solar photovoltaic (PV) generation facility and optional 200 MW battery energy storage system (BESS) located in unincorporated Douglas County, Washington. During the review of such a project, EFSEC issues a number of documents that may be made available for public reference in the vicinity of the proposed project sites.

Enclosed with this letter is one flash drive containing the Application for Site Certification (ASC). The attached Summary Table indicates the number of copies being sent to your library. We are hereby requesting that you make these documents available for public inspection and reference in your library.

Please contact our office if you feel public interest in these documents warrants additional copies.

Thank you for your assistance in this matter. If you have any questions, please contact Sean Chisholm, Site Specialist at 360-664-1364.

Sincerely,

A handwritten signature in blue ink, appearing to read "Sonia E. Bumpus".

Sonia E. Bumpus Energy Facility Manager
Energy Facility Site Evaluation Council

Enclosures: Summary Table - List of Libraries

Summary Table – List of Libraries
