

Comment #0012
Badger Mountain Project
Docket #210747

From: [Mark D. Blitzer](#)
To: [EFSEC \(UTC\)](#)
Subject: Aurora Solar Application for Badger Mountain
Date: Tuesday, November 16, 2021 8:52:29 PM

External Email

I respectfully oppose the application to build a solar panel facility at the site on Badger Mountain. I'm sure you realize by now that that site is one of the very, very few remaining habitats for the sage grouse in the entire state of Washington. Fires in recent years have destroyed other sites where the sage grouse once thrived but are not gone. I am a huge supporter of clean energy, first and foremost solar. But this location should be rejected for any development whatsoever.

Sincerely,
Mark D. Blitzer
