

Comment #0017
Badger Mountain Project
Docket #210747

From: [jan.petrie](#)
To: [EFSEC \(UTC\)](#)
Subject: solar panels in eastern WA
Date: Wednesday, November 17, 2021 10:51:04 AM

External Email

My input for solar panels: Not only would they take up vital nesting grounds for grouse, but they would heat the ground and cause further evaporation. Besides, the Columbia River provides enough electricity for WA, OR and CA and beyond. My vote is no thank you. -- JP
