

Comment #0020  
Badger Mountain Project  
Docket #210747

**From:** [Sara S. Lippert](#)  
**To:** [EFSEC \(UTC\)](#)  
**Subject:** Solar Panel Proposal for Burch Mountain in Washington  
**Date:** Wednesday, November 17, 2021 11:27:00 AM

---

External Email

The proposal for solar panels on Burch Mountain seems illogical. With the hydroelectric power available in Chelan and Douglas counties, it seems unnecessary. It will be so detrimental to the breeding and nesting area for the Sage Grouse that it should be stopped as a proposal. Let's not eliminate another bird or animal to supposedly increase our electrical supply. We don't need it.
