

Comment #0033
Badger Mountain Project
Docket #210747

From: [Gerald Gibbons](#)
To: [EFSEC \(UTC\)](#)
Subject: Solar farms
Date: Wednesday, November 17, 2021 6:17:53 PM

External Email

I totally oppose any destruction of our scrub steppe lands to build a giant solar farm or wind farm to produce unreliable electrical energy. This is only possible because of our governments insane tax support of this unreliable source. If we put anything on that land make it nuclear, which is reliable and not destructive of our lands or our wildlife. An emphatic NO on a solar farm on Badger Mt.
