**Description of Proposal:**

On April 7, 2022, the Washington State Energy Facility Site Evaluation Council (EFSEC) received an Application for Site Certification (ASC) from Cypress Creek Renewables, LLC for two 80 megawatt (MW) solar photovoltaic (PV) generation facilities with battery storage located in unincorporated Yakima County, Washington: the High Top Project and the Ostrea Project (together referred to as Projects). The ASC and other materials are posted on the EFSEC website: <https://www.efsec.wa.gov/energy-facilities/high-top-and-ostrea-solar-project>.

**What is EFSEC is proposing to do?**

EFSEC is holding a public meeting to receive public comment on conditions to be included in a draft site certification agreement for the Project to:

- (a) Comply with any development standard or criteria for approval set forth in the Yakima County Unified Development Code, YCC Title 19;
- (b) Ensure compatibility of the development with existing neighboring land uses; assure consistency with the intent and character of the Agricultural Zoning District;
- (c) Ensure that the structures and areas proposed are surfaced, arranged and screened in such a manner that they are compatible with and not detrimental to existing or reasonable expected future development of the neighborhood, or resource uses, consistent with the Comprehensive Plan; and
- (d) Achieve and further the intent, goals, objectives, and policies of the Yakima County Comprehensive Plan and Unified Development Code.

At this meeting, the Applicant and EFSEC staff will make presentations. The public will then have an opportunity to provide comment for the Council's consideration.

**How can you review the proposal documents?**
