Wautoma Solar Energy Project

August 8, 2022
AGENDA

- Team Introductions
- Innergex Overview
- Project Overview
- Siting Considerations / Preliminary Layout
- Permitting and Studies
- Benefits
- Schedule
We believe that renewable energy is part of the solution to reducing the impacts of climate change. We generate value for our employees, our shareholders, our partners and host communities. We are a team of passionate individuals who build strong, long-term partnerships with local communities.

It all starts with a shared vision. Integrating sustainable development into our strategic planning, decision-making process, and daily activities has always been part of our Corporate Culture.

**People**
We are a team of passionate individuals who build strong, long-term partnerships with local communities.

**Planet**
We believe that renewable energy is part of the solution to reducing the impacts of climate change.

**Prosperity**
We generate value for our employees, our shareholders, our partners and host communities.
Innergex Renewable Energy

CHILE
Gross 655 MW
Net 636 MW

CANADA
Gross 1,954 MW
Net 1,454 MW

UNITED STATES
Gross 1,251 MW
Net 1,168 MW

FRANCE
Gross 326 MW
Net 226 MW

480 employees
83 facilities in operation

1,083,528 households supplied with clean, renewable energy in 2021
RENEWABLE ENERGY PROCUREMENT IN WA

- Clean Energy Transformation Act (CETA) 2019
  - 2030: Greenhouse gas neutral electricity supply
  - 2045: 100% renewable or non-emitting (“clean”) electricity
WAUTOMA SOLAR ENERGY PROJECT

- NW Benton County
- Proposed design - 470 MW solar + storage
- Anticipated final design - 400 MW solar + storage
- 875 GWh; enough to power approx. 70,000 WA households
SITING CONSIDERATIONS
AGRICULTURE AND WATER

- **Agriculture:**
  - Low percentage of agricultural land being converted (only 0.5% of GMAAD land in Benton County)
  - Innergex is investigating dual use solar alternatives with participating landowners, including using portions of the solar project lands for grazing and coexistence of solar panels with crops on a small area.

- **Water use**
  - Water required for construction and operations phases is anticipated to be sourced either from existing wells with valid water rights or from an off-site municipal source.
  - Amount to be used is low in comparison to agricultural irrigation.
PERMITTING AND STUDIES

- Plant and Wildlife Habitat Surveys
- Delineation of Wetlands and Waters of the U.S.
- Cultural and Archaeological Resources Survey
- Visual Impact Assessment
- Geotechnical & Hydrology Studies
- Glint & Glare Analysis
- Acoustic Assessment
- Traffic and Transportation Analysis
AVOIDING, MINIMIZING, AND MITIGATING IMPACTS

- Traffic Control Plan
- Vegetation Management Plan
- Habitat Management Plan
- Emergency Response / Fire Response Plan
- Erosion and Sediment Control Plan
- Spill Prevention and Response Plan
- Stormwater Pollution Prevention Plan
- Decommissioning Plan
JOBS AND SERVICES
PROJECT BENEFITS

- Local Tax Revenue
- Partnership Agreements
- Infrastructure investments
- Community investment

Part of being a good neighbor means supporting the causes and efforts that have a broader impact in communities.
STAKEHOLDERS

- Agencies (EFSEC, WDFW, Ecology, DAHP)
- Tribal Governments
- Benton County Commissioners and Planning Department
- Benton County Emergency Services Department
- Participating Landowners
- Adjacent Landowners
- General Public
## PROJECT STATUS AND ANTICIPATED SCHEDULE

<table>
