

STATE OF WASHINGTON

ENERGY FACILITY SITE EVALUATION COUNCIL

PO Box 43172 • Olympia, Washington 98504-3172

May 15, 2024

TO: Interested Persons
FROM: Sonia Bumpus, EFSEC Director
SUBJECT: Mitigated Determination of Nonsignificance – Innergex Renewable Development USA, LLC (Innergex) - Wautoma Solar Energy

Under the Washington State Environmental Policy Act (SEPA), the Energy Facility Site Evaluation Council (EFSEC) is required to ensure that environmental values are considered for projects under its jurisdiction. As the EFSEC SEPA Responsible Official, I have reviewed environmental information submitted by the applicant and others regarding the proposed Innergex - Wautoma Solar Energy Project.

Enclosed you will find a Mitigated Determination of Nonsignificance that includes mitigation so that the proposal would not have a probable significant adverse impact on the environment. These materials can be found electronically at the EFSEC project website:
<https://www.efsec.wa.gov/energy-facilities/wautoma-solar-project>.

The public, agencies, tribes, and other interested parties are invited to comment on this Mitigated Determination of Nonsignificance by submitting written comments from May 20, 2024 through June 3, 2024.

Comments can be submitted through an online database at <https://comments.efsec.wa.gov/>.

Written comments can be submitted by mail to:

The Energy Facility Site Evaluation Council
