C.E.A.S.E. Citizens Educated About Solar Energy comments for June 9,2023 meeting

Ms. Drew and EFSEC members, EFSEC has failed to give adequate Due Notice to the citizens of Klickitat County of the June 9, 2023, Carriger meeting. To post on the EFSEC site and send out emails to a few registered citizens only 6 days in advance is inadequate. EFSEC picked mid-afternoon to hold this meeting which eliminates a vast majority of the Klickitat County citizens to participate as they are at work. Many citizens have been excluded. EFSEC failed to answer my email questions and voicemail questions. The required informational postings in local papers, at the local libraries etc. were not complied with. This prevents many concerned Klickitat County citizens from participating in this meeting denying them of their Due Process. EFSEC failed to post on the EFSEC website the extension request document filed by Cypress Creek Renewables for the Carriger solar project. This failure denies the citizens of an opportunity to review the document prior to this meeting. This violates RCW 42.30 OPMA. EFSEC is biased in favor of Cypress Creek Renewables violating RCW 42.36. EFSEC's

members' salaries are paid by the fees collected from the applicant and this creates a conflict of interest preventing them from making a fair and impartial decision. EFSEC fails to follow their established procedures and state laws. In light of these failures and violations this meeting should be cancelled until all requirements are met. No extension should be granted at this time. Place this complaint on the Carriger record. This is our comments for the June 9, 2023, meeting. Respectfully, Greg Wagner and Deb Wagner C.E.A.S.E. CITIZENS EDUCATED ABOUT SOLAR ENERGY.
