External Email

Hi EFSEC, the eastside of our beautiful state is Inslee's dumping ground for his clean energy scam, and we don't want any more here. EFSEC is helping make his ridiculous clean energy dream come true at the expense of the citizens on the eastside. But why should Inslee or EFSEC care what happens here? You don't see the blight it causes, damage it does to the land/environment, the property damages it causes, or the family and friends lives that are destroyed, and the destruction of our state. Out sight out of mind. All your efforts for the sake of pleasing Inslee and ensuring you'll have a high paying job. You live on the westside and believe you won't be impacted by your decisions, but you are wrong. If and when Inslee's CETA dream comes true, his clean energy will not produce enough electricity and you will feel the impact. You

are not exempt. You will be without electricity just like us on the eastside. Continue pretending what you are doing is good for the state and your children will suffer for your actions. Shame on you. Greg Wagner C.E.A.S.E.
