Commissioners, read this EFSEC notice concerning the Carriger solar project. Will you comment opposing the Carriger extension and protect the people you serve or do nothing and allow this project to destroy our lives. Stand up for the people not the corporations. Carriger solar will have 2-acres of BESS which will endanger the lives of the people you are paid to represent. If you do nothing and a Moss Landing event happens, and people are injured what will you say to them. What will your excuse be, we had a BESS ordinance. That piece of paper will not protect the people. To the people commenting state, we don't want Carriger solar in OUR county. Do NOT grant the extension. William Potter
