My name is Rocel Dimmick. I reside in the area very close to the proposed site of the Carriage Project. I strongly oppose this project primarily due to the Battery Energy Storage System BESS being sited too close to our residence and to the community of Goldendale Washington. The current situation in Moss Landing in California should be a huge red flag. There has been "4 fires in the past 5 years.2025" The most recent fire is still under investigation. Continuing to permit this project is very negligent. Next, I strongly recommend that the studies done by Tetra Tech not be considered. The environmental studies they submitted were done for the applicant. The residents deserve their own non bias studies. Not one done by a corporation that has been under investigation for fraud. I believe the residents in Moss Landing who survived the horrendous fire, would also agree that these projects are extremely dangerous. This extension should not be allowed. Moss Landing, CA fire,2025 is a call to action! We need legislation Now! Sincerely Rocel Dimmick Goldendale Washington 98620 Reference: <https://youtu.be/G0-PXMKYT8Y?si=wsqC7cij7gBBhaDB> <https://youtu.be/5HLQtitI4gc?si=G3TMPCQHHAmlwLgp>
